KIRISH

1. Teens' English 8 ning tarkibiga nimalar kiradi?

Teens' English 8 umumiy o'rta ta'lim maktablarining engliz tili sinflari uchun mo'ljallangan darsliklar seriyasining to'rtinchisidir. Ushbu o'quv-metodik majmua Darslik, O'qituvchi uchun metodik qo'llanma va Multimedia resursi (DVD disk)dan tashkil topgan.

TEENS' ENGLISH 8 NING DARSЛИGI

Darslik 10 ta bo'limdan iborat bo'lib, jami 102 soatlik o'quv materialini qamrab olgan. Har bir bo'lim 6 tadan darsga taqsimlangan. Darslar oddiydan murakkabga tomon o'sib boradi.

102 soatga mo'ljallangan o'quv mashg'ulotlari darslik bo'limlari bo'yicha quyidagicha taqsimlangan:

1-bo'lim. 6 ta dars – 7 soat; uyda o'qish – 1 soat; portfolio – 1 soat; nazorat ishi – 1 soat = 10 soat

2-bo'lim. 6 ta dars – 7 soat; uyda o'qish – 1 soat; portfolio – 1 soat; nazorat ishi – 1 soat = 10 soat

3-bo'lim. 6 ta dars – 7 soat; uyda o'qish – 1 soat; portfolio – 1 soat; test – 1 soat = 10 soat

4-bo'lim. 6 ta dars – 6 soat; uyda o'qish – 1 soat; portfolio – 1 soat; nazorat ishi – 1 soat = 9 soat

5-bo'lim. 6 ta dars – 6 soat; uyda o'qish – 1 soat; portfolio – 1 soat; nazorat ishi – 1 soat = 9 soat

6-bo'lim. 6 ta dars – 6 soat; uyda o'qish – 1 soat; portfolio – 1 soat; test – 1 soat = 9 soat

7-bo'lim. 6 ta dars – 11 soat; uyda o'qish – 1 soat; portfolio – 1 soat; nazorat ishi – 1 soat = 14 soat

8-bo'lim. 6 ta dars – 6 soat; uyda o'qish – 1 soat; portfolio – 1 soat; nazorat ishi – 1 soat = 9 soat

9-bo'lim. 6 ta dars – 9 soat; uyda o'qish – 1 soat; portfolio – 1 soat; nazorat ishi – 1 soat = 12 soat

10-bo'lim. 6 ta dars – 7 soat; uyda o'qish – 1 soat; portfolio – 1 soat; test – 1 soat = 10 soat

Mashq daftari

10-bo'limdan keyin „Mashq daftari“ sahifalari berilgan. U yerda ikki xil mashq turini uchratish mumkin: 1) sinfda bajariladigan mashqlar; 2) uyda bajariladigan mashqlar (uy vazifalari).

Darslikka yozish mumkin emasligi sababli o'quvchilar alohida mashq daftari yuritadilar va bu mashqlarni unga ko'chirib, tegishli vazifalarni bajaradilar.

Grammatik ma'lumotlar

Teens' English 8 darsligining „Mashq daftari“dan keyin „Grammatik ma'lumotlar“ qismi berildi. Bu o'quvchilar o'quv yili davomida o'rgangan hamma grammatik materiallar haqida qisqacha ma'lumot beradi. O'quvchi va o'qituvchilar undan foydalanishlari mumkin.

Lug'at

Teens' English 8 darsligining yakuniy qismi „Lug'at“ bo'lib, unda darslikda ishlatalgan so'zlarning so'z turkumi, transkripsiysi va o'zbek, rus hamda qoraqalpoq tiliga qilingan tarjimalari bilan alifbo tartibidagi ro'yxati keltirilgan.

TEENS' ENGLISH 8 NING MULTIMEDIA RESURSI (DVD DISKI)

Multimedia resurs (DVD disk) ingliz tilini yaxshi egallagan mahalliy o'zbek mutaxassislari hamda o'quvchilar tomonidan o'qilgan matn, dialog va boshqa yozuvlarni o'z ichiga olgan. Unda nafaqat darslikdagi tinglab tushunish mashqlariga oid materiallar, balki interfaol topshiriqlar ham kiritilgan.

Agar DVD diskni topa olmasangiz uning matnnini o'zingiz o'qishingiz mumkin. Hamma DVD disk yozuvlari O'qituvchi uchun metodik qo'llanmada yoki bo'lmasa Darslikda berilgan.

DVD disk ham darsda ham o'quvchilarning undan uyda foydalanishlariga mo'ljallangan. DVD diskda mualliflik huquqi yo'q, shuning uchun undan boshqa o'qituvchilar va o'quvchilar nusxa olishlari mumkin.

TEENS' ENGLISH 8 NING O'QITUVCHI UCHUN METODIK QO'L-LANMASI

O'qituvchi uchun metodik qo'llanma – *Teens' English* o'quv metodik majmuasining muhim bir qismi. O'quv mashg'ulotlarini samarali olib borish uchun u o'qituvchilarning qo'lida albatta bo'lishi kerak.

O'qituvchi uchun metodik qo'llanma quyidagilarni o'z ichiga oladi:

- har bir dars va mashqning maqsadlari;
- o'qituvchilarning tushunishlariga yordam beruvchi til hamda madaniy sohalar bo'yicha qaydlar, mashqlarning javoblari;
- DVD disk uchun yozuv materiallari;
- o'quvchilarni rasmiy baholash uchun qo'llasa bo'ladigan yettita nazorat ishlari (javoblari bilan) va uchta namunaviy test (javoblari bilan);
- darslikdagi mashqlarni to'g'ri tashkil etish bo'yicha o'qituvchilar uchun aniq ko'rsatmalar.

Nazorat ishlari (Progress checks)

O'qituvchi uchun metodik qo'llanmaning 1-, 2-, 4-, 5-, 7-, 8-, 9-bo'limlaridan keyin nazorat ishlari (javoblari bilan) berilgan. Nazorat ishlari o'quvchilar bo'lim materiallarini qay darajada o'zlashtirganliklarini tekshirib ko'rish uchun imkoniyat yaratadi. Bu takrorlashning hamda o'quvchilarda o'z

bilimini tekshirib ko'rish javobgarlik hissini o'yg'otishning samarali usullaridan birdir. Har bir nazorat ishiga 45 daqiqadan vaqt ajratiladi.

Nazorat ishlardagi tinglab tushunish mashqlari DVD diskiga ham yozilgan. Topshiriqlarni bajarish davomida o'qituvchi ularni sinfga eshittirishi lozim.

Testlar (Tests)

O'qituvchi uchun metodik qo'llanmada o'quvchilarni rasmiy baholashda foydalanish mumkin bo'lgan testlar (javoblari bilan) kiritilgan bo'lib, ular 3-, 6-, 10-bo'limlardan keyin o'tkazilishi nazarda tutilgan. Har bir testga 45 daqiqadan vaqt ajratiladi.

Testlar *Teens' English 8* da qo'llangan materiallarga to'la asoslangan, shu sababli darslarga qatnashgan, barcha sinf hamda uy vazifalarini bajarib borgan o'quvchilar yaxshi natijalarga erishishi tayin. Testlardagi tinglab tushunish mashqlari DVD diskiga ham yozilgan. Topshiriqlarni bajarish davomida o'qituvchi ularni sinfga eshittirishi lozim.

2. Teens' English 8 da tez-tez uchrab turadigan mashq turlari

Bo'lim va darslarning mavzulari

Bular darsda alohida tanishtirilmagan yangi so'zlarni o'z ichiga oladi, shu sababli o'qituvchining dars davomida ularga e'tibor qaratishi muhimdir. Imkoniyati bor joylarda mavzu darsning lug'ati va til materialini o'z ichiga oladi. Ular o'quvchilarga dars nima haqida bo'lishini tushunish va ularni yodda tutishga yordam beradi.

Yangi so'zlarni rasmlar bilan solishtirish mashqlari (*Matching activities*)

Bunday turdagи mashqlarda o'quvchilar yangi so'zlarni ma'nosini fahmlash orqali rasmlar bilan solishtirishadi. Ular solishtirishni tugatganlardan so'ng javoblarini Siz yoki o'rtoqlari bilan yangi so'zlar ma'nosini to'g'ri yoki noto'g'ri fahmlaganini tekshirib ko'rishlari kerak. Bu mashq o'qituvchining yangi so'zlar ma'nosini to'g'ridan-to'g'ri berishidek amaldagi uslubga qaraganda anchagina qiziqarlidir. U o'quvchilarning bilish ko'nikmalarini ham rivojlantirishga yordam beradi. M-n.: ingliz tilidagi so'zni o'zları bilgan boshqa bir til bilan taqqoslash va shu usul bilan ma'noni topa olish yoki topa olmasliklarini sinab ko'rish orqali. Bir tildan boshqa bir tilni o'rganishda foydalanish xorijiy tilni o'rganishda muhim ko'nikma hisoblanadi. (O'quvchilaringiz so'zlar ma'nosini fahmlay olmasa yoki noto'g'ri fahmlasalar-da, hech qanday muammo tug'ilmaydi. Zaruriyat tug'ilganda so'zlarning ma'nosini Sizning o'zingiz aytasiz.)

Rasmlardan foydalanish

Teens' English 8 da barcha rasmlar til o'rganish vazifasi sifatida xizmat qiladi. Faqatgina bezak uchun rasmlar berilmadi. Rasmlardan ham o'qituvchi, ham o'quvchi dars davomida faol foydalanishlari kerak. Rasmlardan noto'g'ri foydalanish yoki ularni nazardan chetda qoldirish o'qitish va o'rganishning samaradorligini pasaytiradi.

Tinglash va takrorlash mashqlari (*Listen and repeat*)

Tinglash va takrorlash mashqlari ko'pincha yangi so'zlarni rasmlar bilan solishtirish mashqlaridan keyin yoki o'quvchilar so'z yoki so'z birikmalarining ma'nosini bilib olgandan so'ng bajariladi. Tadqiqot shuni ko'rsatadiki, yangi so'z yoki qurilmalarning ma'nosini bilmasdan turib ularni tinglab takrorlagandan ko'ra, o'quvchilar ma'noni bilganlaridan so'ng ularni tinglab takrorlasalar yaxshiroq esda saqlab qoladilar.

Zanjir mashqi (*Chain Drill*)

Zanjir mashqi yangi til materiali bilan ishlashning eng samarali usullaridan biridir. Ular har bir o'quvchiga yangi til materiali yoki qurilmani ishlatib ko'rishga imkon beradi. Ular juda tez bajariladi.

Zanjir mashqlari sinf mashqidir. O'qituvchi yangi materialni tanishtiradi. M-n.: *I like sewing.* O'qituvchi oldin bir o'quvchi bilan mashq qilib ko'radi, boshqalar esa kuzatib, tinglashadi. U *I like sewing. What about you?* deb aytadi. O'quvchi o'zi uchun javob beradi va shu savolni (*What about you?*) so'raydi. O'qituvchi o'zi uchun javob beradi va shu qurilmani shu o'quvchi bilan yana bir marta mashq qilib ko'radi. Shundan so'ng o'qituvchi o'quvchilardan ushbu jarayonni quyidagidek bajarishni so'raydi:

O'q. 1: I like sewing. (*yonidagi o'quvchi tomon buriladi*) What about you?

O'q. 2: I like reading books. (*yonidagi o'quvchi tomon buriladi*) What about you?

O'q. 3: I like drawing. (*yonidagi o'quvchi tomon buriladi*) What about you? va h.k.

Jarayonni tezlashtirish uchun o'qituvchi Zanjir mashqini qatorlarda tashkil etishi mumkin.

O'yinlar (*Games*)

Darslikda o'yin mashqlari ikki maqsadda ishlatilgan: sinfni faollashtirish va darsda o'rganilgan til yoki so'z birikmalarini mashq qilish uchun. Bu mashqlar darsni qiziqroq olib borishga ko'maklashadi va tilni a'llo darajada mashq qilish imkoniyatini ham yaratadi. Ular o'quvchilarda qiziqish uyg'otadi va ularni ko'proq o'rganishga undaydi.

Mustaqil o'rganish ko'nikmalarini rivojlantirish mashqlari (*Study Skills*)

Darslikda mualliflar mustaqil o'rganish ko'nikmalarini rivojlantirish maqsadida turli-tuman mashqlarni kiritishga harakat qildilar. Mustaqil o'rganish ko'nikmalarini rivojlantirish ustida ishslash turlichadir. U lug'at, jadvallardan foydalanish, o'ziga qayd qilib qo'yish, harflarning o'qilish qoidalariga murojaat qilish, grammatik ma'lumotlardan foydalanish kabilarni o'z ichiga oladi. Mustaqil o'rganish ko'nikmalarini rivojlantirish mashqlari o'quvchilarga amaliy ishslash usullarini o'rgatadi va ularni mustaqil ishslashga tayyorlaydi.

Ma'lumot almashinuv mashqlari (Information Gap)

Ma'lumot almashinuv mashqlari bevosita muloqotni, og'zaki nutqni rivojlantirishga xizmat qiladi. Haqiqiy hayotda kimningdir bizdan nimani so'ramoqchi ekanligini yoki kimningdir qanday javob berishini biz aniq bilmaymiz. Ma'lumot almashinuv mashqlarida o'quvchilar so'rash va javob berish orqali ma'lumot almashishlari kerak bo'ladi. Faqatgina muvaffaqiyatlil muloqot orqaligina ular kerakli ma'lumotdan foydalanib vazifani bajarishadi.

O'quvchilarning o'zlaridagi ma'lumotlarni bir-biriga ko'rsatmasliklari juda muhim. Bir-biriga o'z ma'lumotini ko'rsatmaslikni ta'minlash maqsadida bu mashq odatda darslikning ikki joyida berilgan holda qismlargacha bo'linadi, A o'quvchi o'z qismida yo'q ma'lumot, rasmlardagi o'xshashlik, farq va b. to'g'risida savollar so'raydi. B o'quvchi A o'quvchining savollariga o'z qismida berilgan ma'lumotga ko'ra javob beradi. So'ngra B o'quvchi A o'quvchidan savol so'raydi.

Eslatmalar (Remember Boxes)

Bular darslikning quyi qismida joylashgan bo'lib, yangi til materialini o'zida mujassamlashtirgan. Ular o'qituvchi va o'quvchilarning dars maqsadini tezda ilg'ab olishlariqa qulay. Yangi til yoki qurilmani tanishtirishdan oldin yoki keyin o'qituvchilarga o'quvchilarning e'tiborini eslatmadagi misollarga qaratishi lozimligi tavsiya etiladi.

Ijodiy ish (Project)

Ijodiy ish bu kursning muhim qismidir. U har bir bo'limdagini yakuniy dars bo'lib, oldingi beshta darsda o'rganilgan bilimga asoslangan. U o'quvchilarga bu darslarda o'rgangan narsalarini o'zi bilmagan holda, erkinroq va o'qituvchi tomonidan kam nazorat qilingan holda o'zicha qo'llashga imkoniyat yaratadi. Ijodiy ish o'quvchilarga o'z bilimi darajasida ishlashga imkon beradi; vazifani bajarish davomida kuchli o'quvchilar ko'proq va murakkabroq, o'zlashtirishi qiyin bo'lgan o'quvchilar esa, qisqa va oddiy ishlarni bajaradilar.

Ijodiy ish o'quvchilarga o'z ishlari, bilimlari va yaratuvchanligidan faxrlanishga imkon beradi. Shu sababli o'quvchilar uchun bir-birining ishlarni ko'rishga sharoit yaratish maqsadida sinfxona bo'ylab Ijodiy ish darsi davomida yasalgan plakat va chizilgan rasmlarni namoyish qilish juda muhimdir. O'quvchilardan boshqa o'quvchilarning ishlarni baholash ham so'ralsi mumkin.

Ijodiy ish davomida o'quvchilar yozish jarayoniga jalgan qilinadi. Bunda ular mavzu yuzasidan fikrlar, qaydlar yozadilar. So'ngra ular bu qaydlardan tavsiflar, maqolalar, xatlar, hikoya va she'rlar yozishda, plakatlar yashashda, dasturlar tuzishda foydalanadilar. Ular rasmlar qirqadilar va chizadilar, xarita, grafik tuzadilar, intervyu uyuştiradilar va h.k. Shu sababli o'qituvchida materiallar, qaychilar, chizg'ichlar, qog'oz, yelim, qog'oz qiyqimlari va sh.k. solingan quti bo'lishi foydadan xoli emas. O'qituvchi Ijodiy ish bo'lischen dan oldin o'quvchilardan bu narsalarni olib kelishni so'rashi ham mumkin.

Ijodiy ishlarni har doim bir xil guruhlarda tashkil etish maqsadga muvofiq,

chunki o'quvchilar bir-biri bilan muntazam hamkorlikda ish olib borishadi. O'qituvchi uchun ijodiy ish darslari yuzasidan batafsil uslubiy tavsiya o'qituvchi uchun metodik qo'llanmada berildi.

Ijodiy ish davomida tayyorlangan plakatlardan ota-onalarga bolalarning englis tilini qay darajada o'zlashtirayotganliklarini ko'rsatish uchun ham foydalanishingiz mumkin.

Bajarilgan ishlar jildi/fayli (*Portfolio*)

Teens' English 8 darsligida 1–10-bo'limlarni o'rganish davomida shu bo'limlarga oid portfolio, ya'ni bajarilgan ishlar jildi/faylini tayyorlab borish ko'zda tutilgan. Bu bo'limlarning ijodiy ish darsidan keyin har bir portfolio darsiga yana 45 daqiqadan vaqt ajratiladi.

Portfolio darslarida o'quvchilar tegishli bo'lim bo'yicha o'zlarining englidan bajargan eng yaxshi ishlari, loyihalari, namunali nazorat ishlari, testlari, kundaliklari, chizmalari va h.k.lar jildini tayyorlaydilar. Bunday faoliyat o'quvchilarda o'z ishi, bilimi va erishgan yutuqlaridan faxrlanish tuyg'usini uyg'otadi. O'qituvchi sinfxona devorlarida tayyorlangan jiddlar ko'rgazmasini tashkil qilishi hamda ota-onalarga bolalarining englidan erishayotgan yutuqlarini ko'rsatishda ulardan foydalanishi mumkin.

O'qish/tinglashdan oldin, bu jarayon paytida va undan keyin bajariladigan mashqlar (*Pre, while and post reading/listening activities*)

Teens' English 8 darsligida o'qish yoki tinglashning samarasini oshirish maqsadida 3 bosqichli mashqlardan foydalanildi. Ular o'qish/tinglashdan oldin, bu jarayon paytida va undan keyin bajariladigan mashqlardir.

O'qish/tinglashdan oldin bajariladigan mashqlar o'qish/tinglash matnlaridan oldin bajariladi. Ular mavzuga o'quvchilarning qiziqishlarini uyg'otadi, ularni ma'lumotni oldindan aytishga ruhlantiradi, ularni o'qish va tinglash matnlarida yoritilgan fikrlarga yaqinroq keltiradi.

O'qish/tinglash paytida bajariladigan mashqlar o'qish/tinglash jarayoni davomida amalga oshiriladi. Ular o'quvchi, tinglovchilarga o'qish, tinglash uchun berilgan parchalarning mazmunini, parcha qanday yozilganligini va yozuvchining maqsadini tushunishga yordam beradi.

O'qish/tinglashdan keyin bajariladigan mashqlar matnni o'qigandan, tinglagandan so'ng amalga oshiriladi va ular o'quvchi, tinglovchini matn mazmunidan tashqariga olib chiqadi. Ular o'quvchi, tinglovchini matnni o'z qarashlari, qiziqishlari va bilimlariga bog'lashga yoki matndan olgan ma'lumoti yuzasidan biror ish qilishga undaydi. 3 bosqichli yondashuvning maqsadi o'qish/tinglashni osonlashtirish va o'quvchilarga tabiiy usulda o'qish/tinglashga yordam berishdir. Kundalik hayotimiz davomida agar gazeta o'qiydigan bo'lsak, biz avval sarlavhalarga qaraymiz va umumiylasavvurga ega bo'lamiz, so'ngra diqqat bilan, batafsil ko'rib yoki o'qib chiqamiz.

O'qish va tinglash matn turlari

Teens' English 8 dagi o'qish va tinglash matnlari hayotiy matnlardir.

Xilma-xil matn turlari berildi: gazeta va jurnal maqolalari, e'lonlar, lug'at va ensiklopediyalardan parchalar, yorliqlar va paketlar, xatlar, radio eshittirishlari, jonli muloqotlar, musobaqalardagi nutqlar va boshqalar.

Nutq faoliyat turlari o'rtaqidagi bog'lanish

Teens' English 8 da to'rt nutq faoliyati turlari: tinglab tushunish, gapirish, o'qish va yozuv o'zaro bog'langan holda o'qitiladi. Bunga sabab haqiqiy hayotda kamdan-kam hollardagina o'qigan narsalarimiz haqida gaplashmaymiz yoki yozmaymiz yoki eshitgan narsalarimizga o'qigan narsalarimizni bog'lamaymiz. Shu sababli nutq faoliyati turlarini bir-biri bilan quyidagidek turli faoliyatlar orqali bog'lashga harakat qildik:

– o'qish va yozish, m-n.: o'qish va jadvallarni to'ldirish, qisqa bayonlar yozish, xatga javob yozish, o'zi haqida yozish, o'ziga qayd qilib qo'yish, savollar yozish, fikrlarni yozish va boshqalar.

– o'qish va tinglash, m-n.: o'qib olingen ma'lumotni tinglash orqali tekshirib ko'rish, matn va fikrlarni solishtirish va boshqalar.

– o'qish va gapirish, m-n.: o'qish va savollarga javob berish, to'g'ri yoki noto'g'ri ma'lumotlarni aytish, matndagi ma'lumotlarni muhokama qilish, bahslashish va boshqalar.

– tinglash va o'qish, m-n.: tinglash va matnlar tartibini joylashtirish, matndan talab qilingan ma'lumotlarni topish va boshqalar.

– tinglash va yozish, m-n.: tinglash va tushib qolgan ma'lumotlarni, jadvallarni to'ldirish, fikrlarni yozish va boshqalar.

– tinglash va gapirish, m-n.: tinglash va savollarga javob berish, muhokama qilish va boshqalar.

Talaffuz

Talaffuz, asosan, o'quvchilar so'zlarning ma'nolari bilib olingandan keyin DVD disk va o'qituvchining ketidan takrorlash orqali amalga oshiriladi. Tadqiqot shuni ko'rsatadi, o'quvchilar so'zlarning ma'nosini bilib olgandan so'ng so'zlarni qanday talaffuz qilishni o'rganish ular uchun osonroq va samaraliroq bo'ladi.

Qo'shimcha grammatik mashqlar

Bular bo'lim yoki darslarda o'rganilgan grammatika uchun qo'shimcha mashqlarni o'z ichiga oladi. Qo'shimcha grammatik mashqlarni qo'llashdan maqsad allaqachon orttirilgan grammatik bilimni ko'proq ishlatalish va mustahkamlash hamda o'zlashtirishi qiyin yoki grammatika ustida ko'proq mashq qilishi kerak bo'lgan o'quvchilarga yordam berishdir. Bu mashqlar o'quvchilarga mustaqil va o'zicha ishlashga imkoniyat berish maqsadida ham ishlatalishi mumkin. Qo'shimcha grammatik mashqlar DVD diskda har bir bo'lim uchun berildi.

Aktiv va passiv leksikani o'rgatish

Leksikani qanday o'rgatish haqida mulohaza yuritganda o'quvchilar ham aktiv, ham passiv so'z boyligiga ega bo'lislari kerakligini yodda tutish lozim.

Aktiv so‘z boyligi

Yozganimizda yoki gapirganimizda qiynalmasdan, to‘xtamasdan, eslashga o‘zimizni majburlamasdan, to‘g‘ri yoki noto‘g‘riligi haqida o‘ylab ham o‘tirmasdan bemalol ishlatishimiz mumkin bo‘lgan inglizcha so‘zlar, terminlar, iboralar, shuningdek, idiomatik iboralar aktiv so‘z boyligini tashkil etadi. Aktiv so‘z boyligi o‘quvchi tushunadigan, o‘z shaxsiy fikrini ifodalash uchun qo‘llay olishi mumkin bo‘lgan so‘zlarni o‘z ichiga oladi va bu ingliz tilini **produktiv bilish** deb ataladi.

Passiv so‘z boyligi

Biz faqat ma‘nosini biladigan va taniydigan, ammo yozuv va suhbatda beixtiyor, bemalol ishlata olmaydigan inglizcha so‘zlar, terminlar, iboralar, shuningdek, idiomatik iboralar passiv so‘z boyligiga kiradi. Passiv leksika tushunish uchun muhim ahamiyat kasb etadi, chunki so‘zlovchini tushunish masalasi tinglovchidan passiv leksikaga ega bo‘lish, ya’ni suhbatdosh nima haqida gapirayotganligini tushunish uchun u ishlatadigan so‘zlarni yetarlicha bilishni talab etadi. O‘quvchilar matn o‘qiyotganda inglizcha so‘z va gaplarni taniydiilar, ularning ma‘nosini tushunadilar, ammo o‘z nutqida ulardan faol foydalanmaydilar. Bu ingliz tilini **retseptiv bilish** deb ham ataladi.

Uyda o‘qish uchun mo‘ljallangan matnlar ko‘plab aktiv hamda passiv leksikani o‘z ichiga oladi. O‘quvchilar matn o‘qiganlarida o‘z aktiv va passiv so‘z boyligidan foydalanadilar va vaqt o‘tishi bilan ularning passiv so‘z boyligi oshib boradi. Uyda o‘qish uchun mo‘ljallangan matnlar leksikasi o‘qituvchi uchun metodik qo‘llanmada berib borilgan.

3. Teens’ English da qo‘llanilgan yondashuv

Teens’ English 8 xorijiy tillar bo‘yicha Ilmiy Metodik Kengashda 2017-yilda tasdiqlangan Davlat ta‘lim standartlari va o‘quv dasturi asosida yaratildi. Dastur O‘zbekistonning turli joylarida istiqomat qiluvchi o‘quvchi va o‘qituvchilar bilan maslahatlashilgan holda tanlangan mavzularga asoslanadi.

Teens’ English 8 da o‘quvchilarga **to‘rt nutq faoliyati turlari**: o‘qish, tinglab tushunish, gapirish va yozuvni rivojlantirishga yordam berish maqsad qilib olingan. Darslikda zamonaviy kommunikativ Ingliz tilini o‘qitishga alohida urg‘u berilgan, shuning uchun ilgarilari nazardan chetda qoldirilgan gapirish va tinglashsha katta e’tibor qaratilgan. Albatta, o‘quvchilarga **lug‘at, grammatika va talaffuz** bo‘yicha yaxshi bir poydevor kerak, shuning uchun bular ham muntazam ravishda rivojlantirilib borilgan. Teens’ English 8 da lug‘at mavzular bo‘yicha tanlangan, grammatika esa muloqotning tarkibiy qismi sifatida o‘rgatilgan. 8-sinf darsligida dastlabki tarjima malakalarini muntazam ravishda rivojlantirib borishga e’tibor qaratiladi. Bu sinfda tarjima ingliz va ona tilidagi yangi so‘z va so‘z birikmalarni taqqoslash va farqini ko‘rsatish uchun ishlataladi.

Teens’ English va Siz foydalangan boshqa bir darsliklar orasidagi asosiy farq shundaki, Teens’ English da til o‘qitishning **o‘quvchiga yo‘naltirilgan yondashuvi** (*learner-centered approach*)ga urg‘u bergenligidadir.

Buning ma‘nosи shuki, ilgarilari o‘quv jarayonida o‘quvchilarga emas, balki o‘qituvchining roliga ko‘proq e’tibor berilar edi. Albatta, o‘qituvchi ham

juda muhim, ammo tadqiqot shuni ko'rsatadiki, agar o'quvchilarga yangi til materialini mashq qilish va amalda qo'llab ko'rishga imkoniyat berilsa, ular samarali muloqot qilishni ko'proq o'rganadilar. Shunday qilib, *Teens' English* da ishlatilgan o'quvchiga yo'naltirilgan uslubning maqsadi o'quvchini sinfxonada sodir bo'ladiqan ko'p narsalarning diqqat markaziga qo'yishdir. Shu sababli *Teens' English* juftlik va guruhlarda ishlash orqali yangi tilni tabiiy qo'llashga o'quvchilarni ruhlantiradigan ko'pdan-ko'p mashqlar, bahslar, ijodiy ishlar va o'yinlarni o'z ichiga oladi.

Albatta, Siz hanuz yangi so'z va grammatikani o'quvchilaringizga tanish-tirishingizga to'g'ri keladi, lekin o'quvchiga yo'naltirilgan sinfxonada Siz juftlik va guruh ishlarini tashkil qilish va boshqarishga ham ko'p vaqt sarflaysiz.

O'quvchiga yo'naltirilgan sinfxonani tashkillashtirish

O'quvchilaringiz tez-tez juftlik, uchlik va to'rtliklarda ishlaydi, shuning uchun oldindan darsni va bu guruhlarni qanday tashkil etish xususida o'ylab ko'rishga to'g'ri keladi. O'quvchilar bir necha marta guruhlarni tashkil qilib ko'rgandan so'ng, ularni eslab qoladi va tezlikda guruh tashkil etishga o'rganib qoladi.

O'quvchiga yo'naltirilgan sinfxonada o'qituvchining roli

O'quvchilar hayotda yaxshi muloqot qila olmasliklarining sabablaridan biri bu ular o'rgangan o'zaro muloqot turlari quyidagidek bo'lganligidandir:

a) O'qituvchi sinfda ma'ruza o'qiydi. Muloqot o'qituvchining bevosita ishtiroi bilan yoki u orqali bo'ladi.

b) O'qituvchi o'quvchilarning biridan o'z oldiga kelishini so'raydi va u bilan yo gaplashadi yo uni tinglaydi.

d) O'qituvchi joyida turgan bir o'quvchi bilan suhbatlashadi yoki uni tinglaydi.

e) O'qituvchi ikki o'quvchidan bir-biri bilan suhbatlashishini so'raydi (m-n.: yod olgan dialogini aytib berish).

f) Agar o'quvchilardan bir-birlari bilan suhbat qurish so'ralsa, ular tabiiy muloqot o'rniga odatda navbatma-navbat gapirishadi. Bundan tashqari, o'qituvchi nima deyilayotganligini tinglab, ularning yonida turadi. Agar o'qituvchi juftlik va guruh ishlarini tashkil etsa, o'quvchilar tabiiy roq usullarda bir-birlari bilan muloqotga kirishadilar.

Kommunikativ faoliyatlar o'sib, rivojlanib borar ekan, o'qituvchi boshqa „o'qimaydi“, u tashkillashtiradi, mashq beradi va uni ehtiyojkorlik bilan „nazorat qiladi“, u o'quvchilarni tinglaydi va hamma narsaning o'z joyida ekanligiga ishonch hosil qiladi. O'qituvchi faqat o'quvchi mashqlarni o'zlaricha qila olmasligiga ko'zi yetgan taqdirdagina ularga yordam berishi kerak bo'ladi. O'qituvchi xuddi orkestrning dirijoridek bo'lishi: yo'l ko'rsatishi, lekin chalmasligi kerak.

Avvalboshda Siz bu faoliyatlarning ayrimlarini tashkillashtirishda biroz qiyonalishingiz mumkin, ammo tezda bunga ko'nikib ketasiz. Ishonchimiz komilki, ular o'quvchilaringizni shunchalik qiziqtirib qo'yanidan ularning o'zi Sizga mashqlarni tashkillashtirishda yordam berib yuborishadi.

Og‘zaki ingliz tilidagi xato va kamchiliklarni to‘g‘rilash

Hozirgi kunda ko‘pchilik o‘qituvchilar o‘quvchilari yo‘l qo‘yayotgan har bir xatoni tuzatish kerak yoki kerak emasligi to‘g‘risida ikkilanib qolishadi. Amaldagi sinfxonada urg‘u odatda nutqiy bexatolikka beriladi va hamma xatolar o‘sha yerning o‘zida tuzatiladi. Bunda muammo shundaki, ko‘pchilik o‘quvchilar xato qilish va uning xatosi tuzatilishidan qo‘rqib, gapirishni uncha xush ko‘rismaydi.

O‘quvchilarni ingliz tilidan haqiqiy muloqot qilish uchun foydalanishga ruhlantiradigan o‘quvchiga yo‘naltirilgan sinfxonada nutqiy ravonlik, xatosiz nutq muhim ahamiyat kasb etadi. Bu bilan biz xatolar tuzatilmasini demoqchi emasmiz, lekin u *Teens’ English* da qo‘llanilgan kommunikativ mashqlardan keyin qilinishi mumkin. Agarda buni muloqot paytida amalga oshirsangiz, unda Siz o‘quvchilaringizga muntazam ravishda xalaqit bergen bo‘lasiz. Albatta, Siz o‘quvchilaringiz yo‘l qo‘yayotgan xatolarni eslab qolishingizga to‘g‘ri keladi, shu sababli Siz sinfxonani aylanib yurar ekansiz, ularni o‘zingizga qayd qilib borish tavsiya etiladi. Mashqning oxirida o‘zingizga qayd etib qo‘ygan ba‘zi odatiy yoki muhim xatolarni o‘quvchilarga aytib o‘tishingiz mumkin.

Shovqin

O‘quvchiga yo‘naltirilgan sinfxonada shovqin bo‘lishi tabiiy va uning nazoratli hamda konstruktiv ekanligini nazarda tutgan holda unga yaxshilik ramzi sifatida qaralishi lozim.

O‘quvchilaringizni juftlik va guruh ishlari davomida shovqin solmasdan va xushmuomalalik bilan gapirishga hamda vazifasini ertaroq bajarib bo‘lganlarni qo‘srimcha vazifa olishga tayyor bo‘lib turishga o‘rgating. Agar mashqni bajarishdan oldin aniq ko‘rsatmalar bersangiz, o‘quvchilaringiz vazifani adashmasdan va ortiqcha shovqinlarsiz bajara oladilar. O‘quvchilaringiz Siz va bir-birlari bilan qanday gaplashishiga doir qoidalar ishlab chiqing.

Ona tilidan foydalanish

Teens’ English 8 ning mualliflari ingliz tili ingliz tili orqali yaxshiroq o‘zlashtiriladi deb hisoblaydilar, shu sababli biz o‘qituvchiga sinfxonada mumkin qadar ko‘proq ingliz tilidan foydalanishni tavsiya beramiz. Albatta, ba‘zi hollarda o‘quvchilarga ona tilida tushuntirish kerak bo‘ladi. Lekin hamma narsani o‘quvchilarga tarjima qilib bermaysiz degan umiddamiz. Tadqiqot shuni ko‘rsatadiki, agar o‘quvchilar ma‘noni o‘zları chaqib olishga ruhlantirilsa, ularning o‘rganishi samarali bo‘ladi.

Uy vazifasini tekshirish

Har bir tajribali o‘qituvchi o‘zining uy vazifalarini tekshirish usullariga ega. Quyida tajribasi yo‘q o‘qituvchilarga bir necha tavsiyalar berildi.

Qanday qilib?

Uy vazifasini tekshirishning bir necha usullari bor.

a) An‘anaviy usul. O‘qituvchi bolalarning ishlarini oladi va xatolarni to‘g‘rilab chiqadi.

b) Noan'anaviy usul. O'qituvchi ikki rangli ruchka yoki qalamlardan tekshirish uchun foydalanadi.

Yashil rang — ogohlantirish.

O'quvchi birinchi marta xato qilganda Siz uning tagiga yashil rang bilan chizasiz. Bunda o'quvchilar qilingan xato ustida ishlashadi.

Qizil rang — yomon.

O'quvchining xatosi ko'p mashqlarda takrorlansa uning tagiga qizil ruchka bilan chizing. Bunda o'quvchilar xato ustida qattiq ishlashi kerak. Xatolarni o'zingiz tuzatishingiz mumkin, lekin o'quvchilarga uni o'zlar qilishga imkon bersangiz yaxshiroq bo'ladi. Quyidagi belgilarni hoshiyaga yozish orqali Siz o'quvchilarga o'z xatolarini tuzatishga yordam berasisz: **Gr** – grammatik xato; **Sp** – imloviy xato; **WO** – so'z tartibida xato; **P** – tinish belgisida xato.

d) O'z-o'zini tekshirish usuli. O'quvchilar berilgan namunaga qarab o'z xatolarini tekshiradilar (m-n.: o'qituvchi o'quvchilardan so'raydi va to'g'ri javoblarni doskaga yozadi.)

e) O'zaro tekshirish usuli. O'qituvchi o'quvchilardan o'z ishlarini almashishni va ularga berilgan namuna asosida xatolarni tuzatishni so'raydi.

Qachon?

a) O'quvchilar sinf mashqlarini bajarayotgan paytlarida Siz sinfni tezda aylanib, uy vazifalarini ko'rib chiqishingiz mumkin. O'quvchilarda ikkita ish daftari bo'lsa yaxshi bo'lardi. Bittasi sinf ishi uchun, boshqa biri uy vazifalari uchun.

b) Ijodiy ish davomida uy vazifalarini baholashingiz mumkin.

d) O'quvchilarning ishlarini baholash uchun daftarlarni uyga olib ketishingiz mumkin.

O'quvchilarning ishlarini tekshirish juda **muhim**, chunki:

– Bir haftada uch saat darsga qo'shimcha berilgan uy vazifalarini bajarish orqaligina o'quvchilar yaxshi natijalarga erishishadi. Agar Siz uy vazifalarini tekshirmsangiz, o'quvchilar uni bajarishni to'xtatib qo'yishadi.

– O'quvchilar o'rgangan bilimlarini uy vazifasida ishlata turib xato qiladilar. Agar Siz bu xatolarni topishda ularga yordam bersangiz, har bir xato ular uchun o'rganish imkonini beradi. Agarda ko'rsatmasangiz, ular o'rganish imkonini qo'ldan boy beradilar, hattoki xato bir narsani o'rganishlari mumkin!

– O'quvchilarning o'zlashtirishini kuzatib borishingiz mumkin.
– O'quvchi bilan yakkama-yakka ishlasshingiz mumkin.
– Ko'rgazma, musobaqalar uyuştirib, o'quvchilarni rag'batlantirishingiz mumkin.
– Bu o'quvchilarning ota-onalari bilan ishlashga yordam beradi.

Vaqt hisobi

Darslarda mashqlar uchun belgilangan vaqt taxminiy bo'lib, o'qituvchilar uni o'quvchilarning qobiliyati va tayyorgarligidan kelib chiqib o'zgartirishi mumkin.

4. O'quvchilar uchun zaruriy XXI asr malaka va ko'nikmalari

Globallashuv va bugungi jamiyatda yuz berayotgan jadal o'zgarishlardan kelib chiqib, pedagog va olimlar o'quvchilarni noma'lum kelajakka va hali yaratilishi lozim bo'lgan ish o'rinnariga tayyorlash uchun XXI asr malaka va ko'nikmalarini rivojlantirmoqdalar.

XXI asr malaka va ko'nikmalari ta'limning barcha bosqichlarida o'qitiladigan qator kompetensiyalar bo'lib, o'quvchilarga doimiy o'zgaruvchan dunyoga moslashishda zarur bo'lgan malaka va ko'nikmalarni taqdim etadi.

"XXI asr malaka va ko'nikmalari: zamonamizda hayot uchun o'qib-o'rganish" nomli kitob mualliflari Berni Trilling va Charlz Fadelning so'zlariga ko'ra, XXI asr malaka va ko'nikmalar shunday g'oyani ilgari suradiki, unga ko'ra so'nggi bir necha o'n yilliklar davomida dunyoning shunchalik darajada o'zgarib ketganligidan kundalik hayotda ta'lim olish va ta'lim berish roli ham tubdan va batamom o'zgargan.

XXI asr malaka va ko'nikmalari nima uchun muhim?

Yaqin kelajakda sekinlashishi dargumon bo'lgan hozirgi globallashuv tendensiylari, texnika taraqqiyoti va demografik o'zgarishlardan kelib chiqib, XXI asr malaka va ko'nikmalarini o'quvchilarga o'rgatish muhim hisoblanadi. Texnologiya geometrik progressiya bo'yicha takomillashib, bizning hayotimizga o'z o'zgarishlarini kiritib boradi.

Bir avlod avval o'qituvchilar o'zlarini o'qitgan bilimlar o'quvchilariga bir umrga xizmat qiladi deb o'ylagan bo'lsalar, endilikda esa jadal iqtisodiy va ijtimoiy o'zgarishlar tufayli maktablar o'quvchilarni hali yaratilmagan ishlarga, hali ixtiro qilinmagan texnologiyalarga va hali biz bilmagan, yuz berishi mumkin bo'lgan muammolarni hal qilishga tayyorlashi lozim bo'ladi.

Moslasha olish, texnologik malakalar va boshqa barcha XXI asr malaka va ko'nikmalari o'quvchilarga o'z oldida turgan vazifalarni munosib hal qilish va qiyinchiliklarni yengib o'tishda yordam beradi.

Ta'limda XXI asr malaka va ko'nikmalari

a) Muammolarni hal qilish

Yuzaga kelganda, murakkab muammolarni o'quvchilar hal qila olishlari kerak. Muammolarni samarali hal qilish bir necha elementlarni o'z ichiga oladi:

- avvalgi muammolarni o'rganish;
- mavjud muammolarni hal qilishning yangi usullarini izlash;
- muammolarni mustaqil yoki guruhsda hal qilish;
- xulqni turli muhitlarga moslashtirish.

Mana shu malaka va ko'nikmalar yordamida o'quvchilar ham o'qish vaqtida, ham maktabni tugatganlaridan so'ng duch kelishi mumkin bo'lgan har qanday yangi muammolarni hal qila olishlari mumkin.

b) Analitik (tahliliy) fikrlash

Analitik fikrlash tanqidiy fikrlashdan oldin keladigan muhim qadam. Biror narsa haqida tanqidiy fikr yuritish uchun o'quvchilar uni tahlil qilishlari va tarkibiy qismlarga ajratishlari kerak.

Analitik fikrlash quyidagilarni o'z ichiga olishi mumkin:

- faktlarni fikrlardan ajratish;
- matndagi kalit nuqtalarni aniqlash;
- qonuniyatlar va o'zaro munosabatlarni ko'ra bilish;
- murakkab muammolarni kichik bosqichlarga bo'la olish;
- sabab va oqibatlarni aniqlay olish;
- ma'lumotlarga mantiqiy ishlov bera olish.

Analitik fikrlash – bu Blum taksonomiyasi (kognitiv malaka va ko'nikmalarini taqsimlash metodi)dagи to'rtinchi bosqich. (*Manba: Vasabi Lirning*)

d) Tanqidiy fikrlash

Sinfxonada va kundalik hayotda o'quvchilar shunchaki passiv ma'lumot olmaydilar. Ular onlayn axborotlarni kuzatadilar, ular shunchaki passiv manbasini o'qibatlashadi. Shuning uchun topilgan axborot manbasi va mazmuniga tanqidiy munosabatda bo'lishga o'quvchilarni o'rgatish juda muhim sanaladi.

Tanqidiy fikrlash analitik fikrlashdan keyingi bosqich bo'lib, o'z-o'zini bilish ko'nikmalarini rivojlantirish va duch kelinadigan muammolar haqida chuqurroq mulohaza yuritishga o'quvchilarni undaydi.

O'quvchilarda tanqidiy fikrlash malaka va ko'nikmalarini rivojlantirish uchun quyidagidek savollardan ko'proq foydalinish lozim:

- Siz bu haqida nima deb o'ylaysiz?
- Siz nima uchun bunday deb o'ylaysiz?
- Siz bilganlar nimaga asoslangan?
- Bu nimani ko'zda tutadi yoki taqozo qiladi?
- Buni qanday tushuntirish mumkin, bu bilan nima bog'liq, bu nimaga olib boradi?
- Axborot haqida qanday fikrdasiz?

e) Kreativ (ijodiy) fikrlash

Muhandalislik, musiqachilik, o'qituvchilik va hisobchilik – bu kabi kasblarda ishchi-xodimlar murakkab masalalarning innovatsion yechimini topish uchun ijodiy fikrlash malaka va ko'nikmalaridan foydalishlari kerak bo'ladi.

Noyob va foydali g'oyalarni ishlab chiqish yoki avval bog'lanmagan g'oyalarni aloqa o'rnatish uchun raqamli va noraqamli vositalardan foydalish kreativ fikrlash doirasiga kiradi.

O'quvchilar ijodiy fikrlash malaka va ko'nikmalaridan foydalanganda, muammo tahlilidan ma'lumotlar oladilar, tanqidiy tahlildan xulosalar chiqaradilar va ulardan qandaydir yangi bir narsani yaratishda foydalananadilar.

Kreativ fikrlashga o'rgatish quyidagilarni o'z ichiga olishi mumkin:

- tadqiqot o'tkazish va qo'yilgan savollarga javob izlash asosida ta'lim berish;
- fanlararo ta'lim berish;
- o'quvchilar hamkorligini rivojlantirish.

f) Hamkorlik

Ish yoki jamiyat hayoti haqida gap ketganda, hamkorlik muhim ahamiyat kasb etadi. Globallashuv va yangi kommunikatsiya texnologiyalari ish joyi va

undan tashqarida vujudga keladigan hamkorlik haqidagi tasavvurlarimizni o'zgartitib yubordi.

Har ikkala raqamli va moddiy makonda o'quvchilar g'oyalar yaratish va loyihibar ustida birga ishslash imkoniyatiga ega bo'lishlari lozim.

g) Media va axborot savodxonligi

Bugungi kunda media va axborot savodxonligi deganda axborotni yolg'on (chalg'ituvchi) axborotlardan ajrata olishga o'rgatish tushuniladi. Bu shuni anglatadiki, o'quvchilar (Internetdan topib) axborot olganda yoki olingan axborotlar bilan ishlaganda (loyiha ishi yozganda), ular ishonchli manbalarni topish, tegishli axborotlarni aniqlash va o'z ishida ishlatadigan axborotlarni to'g'ri talqin qilishga qodir bo'lishlari lozim.

h) Texnologik malaka va ko'nikmalar

Zamonaviy o'quvchilar maqsadga erishish uchun xilma-xil texnologiyalardan foydalanadilar. Tadqiqot materialini topish uchun kutubxonaga borib, kitob varaqlash o'rniغا, ular Internetga murojaat qiladilar va axborotlarga to'la yuzlab onlayn ma'lumotlar bazasi bilan tanishadilar.

Bunga qanday erishish mumkin?

- Qidiruv tizimlarining qanday ishlashi va ishonchli axborotni tez topish uchun qidiruv vositalaridan qanday foydalanish kerakligini o'quvchilarga o'rgating.
- Tegishli malaka-ko'nikmalarni o'rgatadigan yoki onlayn-resurslar taqdim qiladigan yangi dasturlarni o'z sinfingizga kiritish uchun o'zingiz ham ularni o'rganing.
- O'z o'quvchilarining kodlashtirish yoki dasturlashtirish asoslarini o'rgatuvchi kurslar, robototexnika to'garaklari yoki kompyuter klublariga yozilishni, a'zo bo'lishni maslahat bering.

Teens' English 8 ni o'qib o'rganing!

Biz, mualliflar, *Teens' English 8* darsligini yaratish davomida ko'p izlandik. Endi umid qilamizki, Siz, o'qituvchilar, undan o'quvchilarining bilan foydalanib, o'qib-organasizlar. Sizlarga omad tilaymiz!

Activity 1 Work in pairs. Read and answer. 6 min

Objectives: to introduce the topic;
to revise old vocabulary

STEP 1: Ask the pupils to think about the holiday we have celebrated recently.

STEP 2: In pairs the pupils ask and answer the questions about Independence Day in Uzbekistan.

Possible answers:

1) Independence Day is a special day which is celebrated on different dates in every country depending on the day they declared their independence. Many countries worldwide commemorate the date when they gained independence after being part of another state or colony.

2) The main reason to celebrate Independence Day is educating the youth of the nation. New generations learn more about the history of their country and their nationalist feelings are encouraged with the help of the events organized in this day. All of these events are usually organized by the government and other institutions such as the army. Independence or national days are perhaps the most important day for a country to commemorate as a national holiday.

3) You can participate in the events organized in all around the country. In addition to these, your school may organize something like theater which emphasizes the importance of this day. Children may participate in this show or parents can take their children to one of these shows. The TV broadcasts usually broadcast movies about the history of the country, so that you can stay at home and watch these with your family.

Activity 2a Work in pairs. Match the flags with countries.

Complete the table with nationality. 6 min

Objective: to revise vocabulary for countries and nationalities

STEP 1: Ask the pupils to find an activity on page 86 and match the flags with countries in the table.

STEP 2: In pairs the pupils complete the table with nationalities.

Answers:

	country	flag	nationality
1	India	e.g. C	e.g. Indian
2	South Korea	E	South Korean
3	Mexico	A	Mexican
4	Poland	H	Polish
5	Ghana	D	Ghanaian

NB: If the class is advanced, they can write the countries and capitals as

well, for example: India – Delhi, South Korea – Seoul, Mexico – Mexico City, Poland – Warsaw, Ghana – Accra, France – Paris, Australia – Canberra, Norway – Oslo

Activity 2b Listen and check. 5 min

Objective: to work on correct pronunciation of nationalities

STEP 1: The pupils listen to the DVD and check their answers.

DVD script:

1) The Norwegians celebrate their Independence Day since **May 16, 1814**. In Norway, children play a special role in the celebration of their Independence Day. Several **children's parades** are held during the day, where the children march with flags and school banners. In the capital city of Oslo, the children pass the Palace, where the royal family is on the balcony.

Amazing Cultural Facts and Traditions Around the World

05/08/2015 Culture created by Ester Villalobos Gutiérrez

- ✓ In a country like **Germany**, you will see people **knocking on their table** rather than clapping to applaud at the end of a master class or a really good meeting. Clapping is reserved for theater and concerts!

The Germans are quite organized people but there are times when the reality really doesn't match the expectation. Join a queue in a German supermarket and see what happens when a new checkout opens. They rush to the new queue! If you are not fast enough, maybe you can spend more time than expected waiting in line.

- ✓ Have you ever noticed how people introduce themselves in **Spain**? The Spaniards are well-known for being **loud** and **friendly**. If you happen to visit Spain, don't be surprised if a girl kisses you twice - once on

one cheek and once on the other cheek - to introduce herself. It's the Spanish way of saying "Hello!"

✓ Do you like cheese? If so, when you stay with a French host family make sure to spare some space in your stomach for the dessert. In **France** people tend to enjoy a plate of tasty cheese **after** meals.

✓ In **Russia** if you accidentally step on someone's foot, this person will also step lightly on your foot. Why? The first thought that will come to your mind is that it's due to revenge. Far from this, the Russians do that to avoid future **conflict** with this person.

✓ In some Asian countries such as China, Korea or **Japan**, a sign of approval and appreciation of someone's cooking is to eat the soup **loudly** - what is considered rude in most western countries. However, in Japan don't blow your nose loudly! It is considered very rude. So if you need to clean your nose while you are in the Land of the Rising Sun, do it privately or turn your back to your companions before doing it. And remember, do it quietly if you want to avoid offending anyone.

Activity 2c Work in pairs. Compare the countries' traditions. 9 min

Objectives: to develop speaking skill;

to understand and respect other nation's traditions

Ask the pupils to compare traditions in Uzbekistan and in other countries. They should say about differences and similarities. e.g. Both Germany and Uzbekistan In Germany ... but in Uzbekistan

Baby naming traditions

Naming a baby is a great event with a lot of traditions and ceremonies.

The Navajo people in America and Mexico find their names very important. So they don't use them in everyday life. They usually say "Mother, go get Daughter".

People in China first give their baby a "milk" name. It should be something bad, for example, "mud face". It is done to make the evil spirits get away from the baby.

Names given to baby girls in Japan often mean something good: the names like Kiyiko (“clean child”) or Yoshiko (“good child”). The “ko” at the end of female names means “child”. Male names often show the position of child in the family. Ichiro means “first son”, Jiro means “second son” and Saburo means “third son” where “ro” means son.

In Turkey some babies get their names according to the time when the baby was born. Examples of such names are Bayram (holiday), Bahar (spring), Yagmur (rain) or Tufan (storm). If the parents don’t want babies anymore, they name the baby Yeter (enough).

In Ireland the oldest son is named after the father’s father, the second son after the mother’s father, the third son after his father. Some of Irish names are given according to baby’s appearance. For example, Ciara means “dark” or “black”, Fiona means “fair”, and Rowan means “red-haired”.

In many African cultures, names can show older and younger children. This is especially true of twins. In Ghana, the names both for boys and girls are Panyin and Kakra, which mean older and younger. Some Ghanaian people give a name based on the day the child is born. For example, a boy who was born on Friday, gets a name Kofi, a girl is named Efua.

Did you know that more people celebrate New Year around the world than any other holiday?

New Year is definitely the oldest celebrated holiday, though it didn't always begin on the 1st of January. The celebration of New Year began with people from Babylon 4000 years ago!

Depending on the time zone, New Year comes to each country within a day, except for China, where it depends on the moon and comes in February.

Each country has its own New Year celebrations and traditions. But in every country people wish relatives and friends health, wealth, happiness, and luck in the coming year.

Activity 2 Work in pairs. Match the phrasal verbs and words with explanations. 6 min

Objectives: to revise phrasal verbs;

Ask the pupils to match the phrasal verbs the the meaning.

Answer key: 1f, 2c, 3h, 4b, 5d, 6a, 7e, 8g

NB: Phrasal verbs are mainly used in spoken English and informal texts.
(The more formal a conversation or text is, the less phrasal verbs are found.)

Phrasal verbs consist of a verb plus a particle (preposition, adverb). The particle can change the meaning of the verb completely, e.g.:

- look up – consult a reference book (*look a word up in a dictionary*)
- look for – seek (*look for her ring*)
- look forward – anticipate with pleasure (*look forward to meeting someone*)

There are no rules that might explain how phrasal verbs are formed correctly - all you can do is look them up in a good dictionary and study their meanings.

Objectives: to develop speaking;
to practise making Wh-questions in Present Simple;

How to Celebrate New Year at Home

England: For good luck in the new year, the British people believe the first guest to enter through the front door should be a young, dark-haired male bearing presents such as bread (to be full), salt (to be rich) and coal (to stay warm).

Japan: Oshogatsu is celebrated with family, which cleans and decorates the whole house together. Then natural decorations such as pine

branches, plum blossoms, and bamboo play a special role in preparing for the New Year celebration.

Denmark: As a sign of friendship, people save their old dishes in order to break them on each other's front doors. Neighbours break the dishes into pieces and then count the pieces in order to show who has the most friends.

China: To symbolize happiness and a good luck in the new year, the Chinese paint their front doors red. In general, red colour is the colour of New Year's Eve in China, with red packets of money for children, red packets for married couples, and red lanterns.

Puerto Rico: In addition to cleaning their homes as the Japanese do, Puerto Ricans clean everything – the car, the garden, and even the streets. They also have a practice of throwing buckets of water out of the window in order to do away with the bad luck of the last year.

South Africa: Some South Africans – particularly those in the neighbourhood of Hillbrow in Johannesburg take cleaning houses for the new year to an entirely new level. Throwing old furniture (and sometimes fridges!) from the windows of tall buildings helps them make New Year's Day bright.

- 1) The British people believe the first guest to enter through the front door should be a young, dark-haired woman.
- 2) Bread, salt and coal as presents on New Year mean good luck in England.
- 3) In Japan Christmas is called Oshogatsu.
- 4) In Denmark neighbours break the dishes into pieces to show who has the most friends.
- 5) People in China don't like red colour because it bring unhappiness.
- 6) Puerto Ricans have a practice of throwing buckets of rubbish out of the window in order to do away with the bad luck of the last year.

DVD script:

History of messages

Before the development of modern communication, information was sent across long distances in different ways. Native Americans and some other ancient civilizations such as China, Egypt and Greece used smoke signals. It happened more than 2800 years ago. However, such method was not good because of the weather and other reasons.

Then, about 2500 years ago, there was a period in history when a messenger on horse or on foot was sent from one region to another with messages. There is a story about the ancient Greek Phidippides. He ran about 240 km in two days and back. Then he ran 40 km from Athens to Marathon city and then back to Athens to say "We win" in the war against the Persians. This is where we get our modern marathon racing.

Some of the first telegraphs were made in the late 1700s, but these were hard to use.

In ancient Egypt and some Asian countries pigeons were used as messengers. But in Europe they became popular much later. The most popular were the pigeons, which were used in England. They could fly as long as 1,800 km and the highest speed was up to 160 km/h. In 1815 there was a first pigeon messenger sent from Paris to London.

The invention of telephone is the result of work of many people. But Alexander Graham Bell is known as the inventor of the first practical telephone in 1876.

In 1894 there was the first type of radio technology. Broadcasting began later with AM radio which became very popular. We don't use it now. We use FM radio which is better than AM radio.

One of the great inventions of our time is the computer. Today, billions of people use computers in their daily life. But the first computers were very large and expensive. People could buy Personal Computers only in the mid 1970s.

The first official mobile phone was invented in 1973 by Martin Cooper. It was called Motorola Dyna-Tac.

The first global Internet technologies appeared in 1990. But since 1995, the Internet has made a lot of things possible. We can make telephone and video calls, send emails and text messages, take part in discussion forums, blogs, social media, and do online shopping.

In 1997 the emoji which we know and love today, was introduced in Japan. It was designed for mobile phones.

We live in a changing society because new knowledge and technologies appear every day. Now we have You Tube, Twitter, Facebook, WhatsApp and Telegram. Today, everyone may communicate through chatbots with a messenger interface. Imagine what we will have in the future...

STEP 2: Ask the pupils to listen and tick what the speaker is talking about.

STEP 3: Check the answers together.

STEP 4: Ask what things they use and why.

Answer key: 1) newspaper; 2) mobile phone; 3) Internet; 4) TV; 5) radio

DVD script:

- 1) I usually read newspapers because they're cheap. My newspaper costs cheaper than to read the news on the Internet. I like reading newspapers especially on Sundays. When I'm looking at the first page, I can see what the main headlines are. On the last page I prefer reading sections about opinions more than gossip articles, which usually make me laugh.

2) I use the news line on my mobile phone to find out about sports events and other news. I get the results of sports events about 15 minutes after they happened, but on the TV you need to wait for the next news programme. So it's faster than on TV.

3) I use the Internet because I like receiving news very soon. Nowadays, reading news or information online is becoming more and more popular in our society. People use the Internet every day instead of reading in papers. Some people think that reading papers will be old fashioned in the future.

4) I'm very busy and I don't have time to read newspapers, so I always watch the evening news on TV. Anyway, watching the news on the TV is more exciting than newspapers because you can see the events.

5) I know it may be old-fashioned, but I love the radio, and that's where I get my news. The radio is easier than newspapers or TV because you can listen when you're doing other things.

Activity 3b Work in pairs. Listen one more time. Choose the correct ending. 5 min

Objective: to develop listening for gist

STEP 1: Explain to the pupils that they are going to listen to the same five speakers. Ask them to read the first sentence and find out what kind of information they need. In this sentence they need information on the first page. Ask them to underline the words "first page". Then ask them to read the sentences a) and b). They must underline the most important words or phrases in them too.

STEP 2: Ask them to read the rest sentences and underline the phrases in the answers.

STEP 3: Explain to them that while they are listening to the speaker, they should try to listen to the underlined words.

Answer key: 1a, 2b, 3a, 4b, 5a

Activity 4a Work in pairs. You are going to interview pupils in your school about how they learn news and which mass media they use. Write five questions. 7 min

Objectives: to revise how to make questions; to develop writing skills; to develop critical thinking

Explain to the pupils that they should look at the information in the box on page 91. Ask them what grammar tense they are going to use. Ask them to think about what interesting things they would like to ask.

Ask them to write five questions. Ask some pupils to read their questions and comment if there are any grammar mistakes.

Activity 4b Read your questions to the class. Discuss and choose the best 10 questions. 7 min

Objectives: to learn how evaluate material; to develop critical thinking

Ask them to write down the questions one by one on the board and not to use the same questions that other pupils have already made. Ask them to choose 10 best questions and be ready to use them for homework.

Homework 2 min

Interview pupils in your school with the questions you wrote in activity 4b. Take notes. When you finish, count up the answers and write them.

Explain to the pupils that they should ask the other pupils in their school 10 questions. After that they must prepare a report.

Activity 3a Work in pairs. Read the interview and guess the meaning of the words: quality paper, gossip, tabloid. 3 min

Ask the pupils about the meaning of the words and how they could guess.

Activity 3b Work in pairs. Read and compare this newspaper article with the interview. 4 min

Objective: to introduce Indirect Speech

Pupils in pairs say about differences they have noticed. Ask some pupils to say their ideas in class.

Activity 4 Work in pairs. Think what difference is between Direct and Indirect Speech? Read and write DS for Direct Speech and IS for Indirect Speech. 3 min

Objective: to enable pupils to differentiate Direct and Indirect Speech

The pupils work in pairs and decide which sentence is Direct and which is Indirect Speech.

NB: You can use the notes below to help pupils understand the difference.

Indirect speech is also known as reported speech. In grammar, when you report someone else's statement in your own words without any change in the meaning of the statement, it is called indirect speech. Quoting a person's words without using his own word and bringing about any change in the meaning of the statement is a reported speech. Look at the following sentences:

Direct Speech: She says, "I am a little bit nervous."

Indirect Speech: She says that she is a little bit nervous.

In the first sentence, the reporter conveys the message of the girl using her actual words (e.g., "I am a little bit nervous.") In the second sentence, the reporter conveys her message but in his own words without any change in the meaning. Thus, both direct and indirect speeches are two different ways of reporting a statement of person. In simple words, quoting a person using your own words is called an indirect speech.

Changes in person of pronouns:

- 1st person pronouns in reported speech are always changed according to the subject of the reporting speech.

- Changes in verbs:

- If the reporting speech is in present tense or future tense, then no change is required to be made in the verb of reported speech. This verb could be in any tense i.e., present, past, or future. For example:

Direct Speech: He says, "I am ill."

Indirect Speech: He says that he is ill.

Direct Speech: She says, "I sang a song."

Indirect Speech: She says that she sang a song.

Direct Speech: You say, "I'll visit London."

Indirect Speech: You say that you will visit London.

Activity 5 Chain drill. Report your partner's words. 3 min

Objective: to practise Indirect Speech

One pupil says a sentence. Another pupil transfers this sentence into Indirect Speech and gives his/her own one. Ask them to look at the example in the book.

Optional Activity 6 Work in groups of 4. Play Running Dictation.

Objective: to consolidate Indirect Speech

This is an optional activity. Ask the pupils to work in groups of 4. Put four sheets of paper with 3 or 4 statements. In each group one pupil is a writer, one is a reader and two are messengers. They must stand in a line. Explain that Pupil 1 (a reader) must run to their paper and read the first statement e.g. "I am thirsty". Then he says the statement to Pupil 2 (Messenger 1). Messenger 1 runs to Messenger 2 and reports this statement in Indirect Speech. e.g. A says that she is thirsty. Then Messenger 2 must run to the writer and report: A says that she is thirsty. The writer must write the statement. The group that finishes first and with no mistakes is the winner.

NB: 1) You can ask the pupils to work in groups of 3 if necessary. In this case there will be one messenger instead of two. 2) All groups must have the same statements.

Possible statements: I am thirsty. I am going to visit my granny this summer. I want to be a footballer.

Homework 2 min

1) Change Direct Speech into Indirect Speech.

Explain to the pupils that they must rewrite sentences transferring Direct Speech into Indirect Speech.

2) Read and write a story about Charlie Hain.

Explain to the pupils that they must write down the sentences about Charlie Hain in Indirect Speech.

Activity 3a Work in pairs. Read the article and say what grammar tenses are used in Direct Speech. 2 min

Objective: to identify grammar tenses

Explain to the pupils that this is an interview. They must recognize grammar tenses and structures in the text.

Activity 3b Change Direct Speech into Indirect Speech. Look at the examples in the Remember Box. 10 min

Objective: to introduce sequence of tenses in Indirect Speech

You can use the notes below to help the pupils to understand:

The Indirect Speech is a bit different to the Direct Speech. The tenses change to past tense forms since the person said it in the past. Let us look at an example.

Mary: "I have to go to the library."

Mary said (that) she had to go to the library.

When using Indirect Speech we also have to pay attention to expressions of time. Expressions like *today, now, here, tomorrow, this (week), last (Sunday)*, etc. change to *yesterday, then, there, the following day, that (week), the previous (Sunday)*. For an example,

Direct speech – Clara said, "I have a class tomorrow."

Indirect speech – Clara said that she had a class the following/next day.

Important Word Changes

words	changes into	Direct Speech	Indirect Speech
this	that	He says, "He wants to buy this book."	He says that he wants to buy that book.
these	those	He says, "He wants to buy these books."	He says that he wants to buy those books.
here	there	She says, "Everybody was here."	She says that everybody was there.
now	then	They say, "It's ten o'clock now."	They say that it's ten o'clock then.
today	that day	She said, "I am going to London today."	She said that she was going to London that day.
tomorrow	following or next day	She said, "I am going to London tomorrow."	She said that she was going to London the next day.
tonight	that night	She said, "I am going to see him tonight."	She said that she was going to see him that night.

- Present Indefinite Tense is changed into Past Indefinite Tense. For example:

Direct Speech: *They said, "They take exercise every day."*

Indirect Speech: *They said that they took exercise every day.*

- Present Continuous is changed into Past Continuous Tense.

Direct Speech: *They said, "They are taking exercise every day."*

Indirect Speech: *They said that they were taking exercise every day.*

- In Future Tense, no changes are made except will is changed into would.

Direct Speech: *They said, "They will take exercise."*

Indirect Speech: *They said that they would take exercise.*

LISTENING

1 Listen and choose the correct answer. (7x2=14)

DVD script:

Interviewer: Good evening, I hope you don't mind answering a few questions.

Alik: How long will it take?

Interviewer: Just a few questions.

Alik: I guess I can manage to answer a few questions. Go ahead.

Interviewer: I'd like to ask your opinion about the use of some electronics. Because smartphones are popular, which is the best brand?

Alik: I'd say Samsung is one of the best brands and 88 Tauri phone from Lamborghini is also very good.

Interviewer: Which brand is the most expensive?

Alik: There are lots of really expensive smartphones. For example, iPhone Princess Plus is not much different from other Apple iPhone mobile phones, but it's at the top of 10 most expensive mobile phones in the world. Its price is \$176,400. Well, but I think Samsung W2015 Luxury Flip Smartphone is also one of the most expensive brands which I like. I guess that's why it's very good.

Interviewer: Which brand do you think is the worst?

Alik: Tastes differ. But according to its ugly appearance and a small display with a bad resolution, a miserably working camera and a bad design, I think Samsung Galaxy Ace is one of the examples.

Interviewer: And which brand is the most popular with the young people?

Alik: That's a difficult question to answer for me. Though studies show that Xiaomi is in the leading position and Samsung is the second in the world, I think that Realme, a Chinese brand is becoming the most popular with young people. The brand was established on May 4, 2018 which is National Youth Day in China. It's a smartphone brand that is young and it was designed especially for the young people. Realme also produces other products such as earphones, fitness bands and bags. It's interesting that the new brand Realme is more popular than ASUS, a Taiwan-based multinational electronics company, and Nokia.

Interviewer: One last question, which brand are you using?

Alik: Actually I've had Huawei Mate 30 Pro 5G since autumn 2018.

Interviewer: Do you enjoy using it?

Alik: Yes. It's not cheap but very comfortable and I like the colours of the photos.

Interviewer: Thank you for your time.

- A Better than other mass media
- B Growing fast
- C Better for learning
- D The Internet is better than listening to the radio
- E The difference between the Internet and the WWW
- F What the Internet is

The Internet

1) The Internet is an interactive medium of mass media, and can be shortly described as a big network of many computer networks connected with each other.

2) The Internet and the World Wide Web are not synonyms: the Internet is the system of computer networks, connected with each other by wires, optic cables, wireless connections etc.; the World Wide Web has all the ideas, pictures and articles, or the documents.

3) Toward the end of the 20th century the invention of the Internet has allowed interesting news to reach any place on the globe within minutes. This fast growing has changed mass media and the way how people in different countries get it.

4) The Internet is quickly becoming the centre of mass media. We can get everything we want via the Internet. Rather than picking up a

newspaper, or watching the news, people can log onto the Internet to get the news they want when they want it. For example, many workers listen to the radio on the Internet while sitting at their lunch tables.

5) Even the school system needs the Internet. Teachers can contact the whole class by sending one e-mail. They may have web pages on which students can get another copy of the class tasks or tests. Some classes have class blogs in which students need to post their tasks weekly and get marks for them.

LESSON 1 Digital media

Aims	Learning outcomes	Vocabulary and structure	Required equipment
<i>Educational:</i> - to revise the topic-related words <i>Developing:</i> - to enable pupils to read and listen for details; - to enable pupils to use new words <i>Socio-cultural:</i> - to raise awareness of the history of mass media and its importance <i>Critical thinking:</i> - guessing a story from the pictures; - inferring the meaning of words from context; - expressing opinions	By the end of the lesson, pupils will be able to talk about using the digital media in their lives.	battle, power, honest, economy, digital media, device, software, image, tablet	Textbook; the DVD of the book

Activity 1a Work in pairs. Read and think. What does this phrase mean? 2 min

Objectives: to raise awareness about the topic;
to develop critical thinking

Ask the pupils to read the sentence and let them think what meaning it has.

Activity 1b Work in pairs. Read and check your answer. 3 min

Objectives: to develop reading for detail; to raise awareness about development of information technology

Ask the pupils to read the text and give their examples of modern technologies in their lives.

Activity 2a Work in pairs. Write down the new words. Listen and repeat. 5 min

Objective: to introduce the new words

Ask the pupils to look at the words and guess the meaning. Explain to them that sometimes the words have almost similar pronunciation and meaning in both languages, e.g. economy.

Ask them to look up the other words. Then they repeat the words after you.

Activity 2b Work in pairs. Look at the pictures and think what the text will be about. 5 min

Objectives: to prepare for the next activity; to develop critical thinking; to activate prior knowledge

Ask the pupils what they can see in the pictures and how they are related to the topic. Praise those who said that pigeons were used to send messages. Ask if they recognized Napoleon. Remind them about historical event of the Battle of Waterloo in 1815. Ask them if they remember who won the battle. Say that the English army was led by Wellington. Explain to them that in the picture they can see a bank where businessmen buy and sell bank papers. People could become rich or poor when they put their money to banks.

Activity 2c Work in pairs. Listen and answer the questions. 4 min

Objective: to develop listening for detail

Ask the pupils to read the questions. Explain to them that the Rothschild brothers were rich businessmen who lived in England. Ask how people could send messages at that time. Remind them that telegraph was invented in 1832, telephone in 1876 and radio in 1895 ([wikipedia.org](https://en.wikipedia.org)). So the messages in 1815 could be only sent by horse on land and by ship in the sea.

Ask them to listen to the text and answer the questions. Elicit some answers.

DVD script:

According to historical stories, two Rothschild brothers, Nathan and Jacob, wanted to learn the news first. They also had one interesting hobby: pigeons. The pigeons took messages from one place to the other.

When French ruler Napoleon came back in 1815, all the banks were waiting for the result of the Battle of Waterloo. Who will win? Napoleon's French army or Wellington's English army? The Rothschild brothers were waiting in London and Paris.

At the beginning of the battle Napoleon was stronger but then he lost. The pigeons from Paris flew to London to inform Nathan Rothschild that Wellington won.

Nathan got the news 24 hours earlier than other people in London. But he began to sell his bank papers in the bank and everybody thought that Napoleon was the winner. As a result, a lot of businessmen sold their bank papers. At the same time, the Rothschilds' people bought all the bank papers for little money.

Only a few days later, everyone in England learned that Napoleon lost the battle. In one day, the Rothschilds had £40 million. Since then they played an important role in British economy.

By the next day we were so happy to find that the number of views was 2,000 in America. The Baby Shark song soon was sung all over the world. I kept the site with the video and then it became popular in Italy, Thailand, Holland, Mexico, Japan and Peru and some other countries. I was surprised by this!

Technology has changed a lot in the last few years. From new medical things to space robotics, the world has changed for the better!

All of these new inventions are possible thanks to innovators with amazing ideas.

1) Laser Eye Surgery

The medical field is one of the areas that has improved with technology. Doctors can now operate on a person using a microscope, a laser, and even robots!

2) GPS

Some people may think that GPS is an amazing invention, but other people may disagree.

The GPS works everywhere on the planet, and it shows your location in real-time. This could be useful for some parents who worried about their kids, but it could be used for wrong activities.

It can also be helpful when you're on a road trip, and you're lost in the woods! Take out your phone and find the nearest route right away. Look at your devices and use them safely.

3) Social Networks

Social media is one of the greatest inventions of all times, period. This technology has given us the power to communicate with anyone in any part of the world!

In addition to communication, it is a fantastic resource for jobs for college graduates or for developing your business, and much more.

4) Self-Driving Cars

Car accidents can be something from the past if we continue to develop this technology. With self-driving cars, you can forget about driving when you're on a highway!

Enjoy the view during a road trip, rest while driving at night, or do your work on your way to work! The possibilities are endless, but make sure you know everything that's going on around you.

1 Listen and choose the correct answer. (5x2=10)

DVD script:

In this day and age media is everywhere. It is on our televisions, in our car radios, on our phones and in our ears. Media has become a very important thing in our lives. But is it always good?

The rise of media is having a bad result on families' way of life. First of all many families don't sit down at the dinner table to eat and talk about what is going on in their lives because they eat at different times or in different rooms. Moreover, families don't have discussions with their children to find out what are the right and wrong things people can do.

What's more? We don't decide ourselves. Our brains are led by somebody else on TV and the radio, in newspapers and magazines. This is becoming a very serious problem as media is becoming less based on real facts and more based on somebody's opinion.

Media now offers everyone to express your opinion. Anyone is able to send any information by Twitter, write a blog post or watch and share a video and photos. This can be used to hurt a person as this becomes public 'opinion'. People might be angry if the writer is wrong.

How to read a webpage

When you open a webpage, it may have many things that want your attention, like ads and pictures. Every webpage is different, but there are some similar things you'll find on most pages. For example, there is the main topic (1) ... the page, with ads on the left or right side. Almost every webpage will have a long area with buttons that let you go to other parts of the website. By learning about some of these basic parts, you'll be able to find the information you're looking for more quickly.

The main topic is usually (2) ... of the page. On most pages it is in the centre and easy to find.

You shouldn't read every word. With most websites, you can go to another page to find what you're looking for. To read faster, you can just read the first (3) ... paragraph.

You can use headings to help you go to the other page. Many online articles have (4) ... the beginning of each section. If the heading doesn't seem what you need, you can simply go down to the next heading.

Don't read ads. They may look like (5) ..., but they usually won't help you find what you're looking for.

(6) If you've clicked a link that isn't helpful, you can go back to the previous page by clicking your browser's Back button.

A biography, or simply bio, is a detailed description of a person's life. It involves more than just the basic facts like education, work, relationships, and death; it portrays a person's experience of these life events. Unlike a profile or curriculum vitae (résumé), a biography presents a subject's life story, highlighting various aspects of his or her life, including intimate details of experience, and may include an analysis of the subject's personality.

DVD script:

Joseph Rudyard Kipling was an English author and poet. He was born on 30 December 1865 in Bombay, India. When he was five years old, he was taken to England to begin his education. He returned to India at the age of 17 to work as a journalist and editor for the Civil and Military Gazette in Lahore. Kipling published his first collection of poems, *Departmental Ditties and Other Verses*, in 1886, and his first collection of stories, *Plain Tales from the Hills*, in 1888.

He wrote children's fiction, like *Kim Novel, The Jungle Book and Puck of Pooks Hill*. He also wrote the well-known poems, *If – and Gunga Din*, and many short stories set in India. He was awarded the 1907 Nobel Prize in Literature.

Kipling died in London on 18 January 1936 and was buried in Westminster Abbey, London.

The first live action film *The Jungle Book* was shot in 1942, but the best-known movie version up until now was the 1967 animated Disney tale. One of its songs, "The Bare Necessities," was even nominated for an Academy Award. An interesting mix of actors participated: Sebastian Cabot played Bagheera, and bandleader Louis Prima played King Louie of the apes and Phil Harris was Baloo.

And like the Kipling's tales about Mowgli, "Rikki-Tikki-Tavi" tells about the relationship between the human world and the animal world. In this case, a mongoose protects a family of humans from a pair of deadly cobras. This battle of mongoose against cobras had some success outside of *The Jungle Book*, having been published as a stand-alone picture book several times over the years.

If you don't understand what the author is trying to say, you may not enjoy the book. Use the five finger rule. Pick a book, and read the first two pages. Put one finger on every word you don't know the meaning of. If you've put 5 fingers, the book is probably too hard for you.

(2) Learn more English words.

It will make reading easier and more fun in the future. If you don't understand a word, first try to guess what it means. Other words in the sentence can help you. Look up words in the dictionary that you do not understand. Write down these words to review later and make them a part of your vocabulary. Use new words you learn in your everyday speech. Putting words into action in your everyday life will ensure that you remember them.

(3) Practise, practise, practise.

Studies have shown that people who spend more time reading, have a larger vocabulary and greater reading understanding. Developing reading skills takes work. Try to read every day. If you need, you may take a short break and then go on. Reading should be an enjoyable experience. Take a book with you on a morning bus or read on your lunch break. DVD script:

D: Hello Maxim, thank you for coming. Today we want to talk about the e-library you created for your school. My first question is: It seems that you love reading. Why?

M: I believe that literature is the most important thing in our lives. I'm crazy about reading. On a quiet evening in my leisure time, I like to spend time reading books on science and classical literature.

D: Wow ... Nowadays when children prefer watching movies and surfing the Internet to reading! So, reading is your hobby?

M: Yes, my paper friends are more of a hobby. But most of my time I spend learning technology and computer programming.

D: How did the idea of this project come to your mind?

M: The beginning of the school year brought good news - Bakhtiyor Abduvakhidovich, the khokim of our Sergeli district, came to visit our school. I had an opportunity to meet and personally speak with the head of my small homeland.

During the conversation between my class and the khokim, we mentioned that there were not enough libraries and bookstores in our small region ... I got a strong dream to help.

D: And how could you help to solve this problem?

M: That day, I could not imagine that during this short meeting a brilliant idea to create an electronic library would come to my mind ... This discussion helped me create a compact library of the twenty-first century – an e-library. The goal was to create a unique e-library, with a large number of books in electronic format. In a small space, I could collect more than 100 books in an e-library.

D: Can you explain to us the advantages of your e-library?

M: The great advantage of this wonderful thing is in its idea. The QR codes help you to directly download the book to your smartphone.

D: Is it difficult?

M: No, it's very easy ... To do this, you just need to open "The scanner" application or camera on the phone and bring it to the QR code of the book you want to download. Modern design and the "idea of the globe" are easy to be used not only for adults, but also for children. Today, every fan of reading can easily get the book s/he needs in 10 seconds.

D: What would you say to your friends in Uzbekistan?

M: I'd like to say that reading is great. I'm sure an e-library gives young people a new type of information and also helps them use modern technologies.

DVD script:

Aziz: Hi, Lena. Nice to see you. What are you doing here?

Lena: Oh... Hello! I'm going to the local bookshop. I need something interesting for my bedtime reading.

Aziz: Oh, I see. Your favourite subject is literature. I wonder... What do you like reading? Poetry?

Lena: Actually I can't choose only one genre. Today, for example, I can read science fiction and tomorrow I can read some poetry.

Aziz: Well ... could you give me a piece of advice? You see ... My friend is going to have her birthday soon. She'll be 15. I think a book could be a good present for her. What kind of book would you recommend?

Lena: It depends on what genre she prefers: fantasy, detectives, adventure or history books? May be a horror book?

Aziz: Personally, I like reading books by Stephen King. But she hates horror films and books. By the way, I've lately read "The Hunger Games" by Suzanne Collins. It's not a horror book but it's exciting. But I don't think she'll like it. I'd like to buy some other kind of book for her; she's a very kind person.

Lena: Hmm... Perhaps one of the many books about Harry Potter by Rowling? They are still very popular.

Aziz: Oh no. She's seen all the films about Harry Potter and I don't think she will want to read the books. She likes reading books about real life instead of fantasy.

Lena: Okay, then. What about "Jane Eyre" by Charlotte Bronte? It's interesting especially for girls.

Aziz: She told me that she'd already read it the previous year.

Lena: Great. You can buy for her a book by Harper Lee. It's called "To Kill a Mockingbird".

Aziz: I've never read this book but... ok... I think if you like it, my friend will like it too. I'll find it. Thank you a lot!

Lena: My pleasure. I hope your friend will like this novel. Good luck.

- 2) Ancient library
- 3) Translations of ancient Greeks

Answer key: 2

Perhaps one of the most famous libraries in the history was the library of Bayt al-Hikmah, a library which was built in Baghdad in 1004. Now Baghdad is the capital of Iraq. In that library, the Muslim scientists studied the world's knowledge and created a library of international importance. They translated Euclid, Archimedes, Pythagoras, Hippocrates, and other famous Greek scientists into Arabic. Indian and Persian texts were used as well. Special books included astronomy, chemistry, geography, mathematics, medicine and zoology. A scientist, Hunayn bin Iskhraq (known in the West as Johannitius) translated into Arabic a lot of medical works. He also wrote some medical books. In one of his books there were drawings which are used today.

Sir Charles Spencer "Charlie" Chaplin (April 16, 1889 – December 25, 1977) was a famous English actor, comedian, movie maker, screenwriter, an editor, a musician, and an author. He was very famous in silent movies (where there was no talking).

Charlie Chaplin was a performer for almost 70 years. He started working when he was 5, and worked until he was 80. The character that Charlie Chaplin played most was called "the Little Tramp". The "Tramp" was a man of good manners, who wore a coat, a pair of big trousers, shoes, and a black hat.

In 1900, his brother Sydney helped him get the role of a comic cat in the pantomime *Cinderella*. In 1903, he was in a play. The next year, he became a clown in a comedy company.

Chaplin won two special Oscars. Chaplin was chosen for both "Best Actor" and "Best Comedy Directing". Chaplin's second special award came 44 years later, in 1972. When he got this award, people were standing up and clapping for a long time. In 1976, he was given his last and most important award. Chaplin became the first actor who appeared on the cover of Time magazine in 1925. The film *City Lights* (1931) is one of Chaplin's best works.

The Mozart Effect

- 1) Some people say that music is much more than entertainment. For example, Don Campbell, an expert on The Mozart Effect says that all types of music, from Mozart to jazz, from Latin to rock can change our learning and our health. Very often, after a busy day at work we listen to music to help us relax. But Campbell disagrees and says that music

can also reduce the stress of being ill, and reduce pain. The director of Baltimore Hospital says that thirty minutes of classical music has the same result as ten milligrams of the painkiller medicine.

2) Campbell also believes that music can help us concentrate. For this we need the right kind of music for our feelings. It is good to listen for about ten minutes before we start studying. When our mind needs relaxing or we want to feel more energetic, we should choose the right music to help us. He says that you can use many different kinds of music to help you concentrate, but that Mozart's music is popular because it is very organized and it makes your brain more attentive and imaginative.

3) Music can improve our memory and makes us more clever. In one study, students who listened to Mozart before doing a test got much higher marks than those who didn't. Many studies also show that children who learn to play a musical instrument before the age of twelve have better memories for the rest of their lives.

DVD script:

Today, digital music is everywhere. Most of your music is on your computer or on CDs. Before 2003, it was almost impossible to buy digital songs online. Now, it's easy to download thousands of songs and create your own playlist. YouTube is used by millions of people every day to watch music videos. But how did people listen to songs before digital music?

The phonograph is a device for the mechanical recording and reproduction of sound. The phonograph was invented in 1877 by Thomas Edison. Since 1887 it was called a gramophone. In the 1890s, Emile Berliner changed phonograph cylinders to flat disks. A gramophone was a common name in the UK since 1910.

An audio tape recorder is a sound recording device that records and plays sounds usually using magnetic tape. The use of magnetic tape for sound recording started around 1930 in Germany. Since the 1940s, it was called a record player.

Magnetic tape changed both the radio broadcast and music recording industries. It gave artists and producers the power to record and re-record audio with minimal loss in quality as well as edit and rearrange recordings easily. At the beginning of the 21st century, digital recording technologies replaced magnetic tape.

Checking homework 5 min

The pupils work in pairs to check homework.

PROJECT 1

Activity 1a Work individually. Complete your column in the table. 10 min

Objective: to enable pupils to convert the data into percentages

STEP 1: Explain to the pupils that the total must be 100%. If they do not like listening to any kind of music let them ignore it. They also can make any changes about the styles.

STEP 2: Convert the data into percentages. To determine the percentages, you will need to divide each value by the total amount of participants and then multiply this value by 100. For example, the total number of pupils is 20. To determine the percentages, you will need to divide each value by the total amount of pupils and then multiply this value by 100. For example, if 4 people say they like rap, then you would divide 4 by 20 to get 0.2. Then, multiply 0.2 by 100 to get 20. This means 20% of the pupils said they prefer listening to rap music.

STEP 3: You should do this with the rest of the values.

Activity 1b Work in groups. Complete the table with the group score.

Make a pie graph. 15 min

Objective: to enable pupils to make a pie graph

STEP 1: Explain that the percentages are essential to create the pie chart, as this will help them determine how big of a slice each category is going to take in the pie.

STEP 2: Determine the sectors of the pie chart. A pie, or a circle, has 360 degrees. So you will need to take the values for each category and multiply them by 360 to determine how they fit into the full circle, or pie chart. This will give you the sectors of the pie chart. For example, to convert the values on rap music, you would divide 4 by 20 to get 0.2 and then multiply 0.2 by 360 to get 72 degrees.

STEP 3: Draw a round circle with a pen or pencil. Divide each section of the pie chart. Use the protractor (транспортир) to measure the degrees of each sector. Mark each sector with a pen or pencil as you measure out each sector until the entire circle contains all the values.

You should label each section with the appropriate category and colour each section a different colour with coloured pencils or a marker. You should also include the percentage associated with the category. For example, the category on rap music should take up 72 degrees of the circle, be labeled "Rap" and have the percentage 20% written down in that category.

Note: Pupils can use approximate degrees.

Activity 1c Write the description of the pie graph. 13 min

Objective: to develop writing skills

Ask the pupils to look at Unit 3 Lesson 2 Homework for the example of description of a pie graph.

PROJECT 2

Write a short text about your musical hero. 38 min

Objective: to develop writing skills

To describe appearance, the pupils can use information in Unit 5 Lesson 5 or biography writing in Unit 4 Lesson 1 and Lesson 2.

Homework 2 min

Ask the pupils to read at home the texts Music for the Clouds and Drums in Space, and get ready for a class discussion.

HOME READING 6 43 min

Objectives: to develop the 21st century skills – critical thinking, creativity, innovation and information literacy; to develop understanding that people should overcome difficulties in their lives and stay honest and kind

STEP 1: Ask the pupils to read the texts Music for the Clouds and Drums in Space one more time.

STEP 2: Ask the following questions for understanding:

Music for the Clouds

- 1) *What problems did a small country have?*
- 2) *Who came to the country and why?*
- 3) *Did the people like music?*
- 4) *What did musicians do at the top of the mountain and why?*
- 5) *What happened after the musicians began playing their instruments?*
- 6) *What did the people begin to do afterwards?*

Drums in Space

- 1) *Who was Brenda Bongos?*
- 2) *What was her dream?*
- 3) *What was the problem with the next-door people?*
- 4) *Where did she practise her drums in order not to bother old people?*
- 5) *Where did she get the idea of becoming a musical astronaut and building a space bubble?*
- 6) *What did she do inside the space bubble?*

7) Was the space bubble useful?

8) How useful were those old people next-door?

STEP 3: Have a class discussion on the topic: "How could life be without music?"

Homework 2 min

Ask the pupils to get prepared for Test 2.

TEST 2 (for Units 4–6) 45 min

| 2) Igor likes his piano lessons. | 5) Igor played the drums. |
| 3) Laziza went to music school. | 6) Laziza is going to sing in a band. |

DVD script:

Igor: Laziza, which music is your favourite?

Laziza: I really like jazz. However, I sometimes listen to rock or classical music. I think it depends on my mood. But I definitely like good music.

Igor: But I don't quite understand what good music is.

Laziza: Perhaps, it's because you didn't go to music classes when you were younger, did you?

Igor: No. Which classes did you take? Can you play any musical instruments or sing?

Laziza: Yes, I can. I took the piano classes. And later I liked singing a lot.

Igor: I think you can be proud that you can play the piano.

Laziza: I think, you're right. What about you? Are you a fan of music of a certain genre?

Igor: I like almost all kinds of music: from folk to hard rock. And, by the way, I can play the drums a bit. When I was at school I played in an amateur band with my friends.

Laziza: That sounds great! We can form our own band. We just need a couple of other musicians.

Igor: There was also a pianist and a guitarist in our school band.

Laziza: Do you meet them sometimes?

Igor: Yes, I do. We sometimes meet up at my father's cafe. Do you want me to talk to them?

Laziza: Yes, please. Ask them if they are interested in a band with us. I'll do the singing and composing part.

Igor: Fine. Let's try to do that. What kind of music are we going to play?

Laziza: We can play jazz, pop or we even can create something new.

Igor: What a wonderful idea! Well, let's meet next Saturday.

Laziza: Okay. I hope we'll create a great band!

Igor: I do too.

Answer key: 1) connects; 2) has; 3) were found; 4) was often focused;

- A To achieve success in studying.
- B Classical music is not special, it is for everybody.
- C Teenagers should be taught to listen to classical music.
- D Most teenagers would not mind listening to classical music.
- E Classical music helps understand your friends better.
- F Your friends might not understand your love to classical music.
- G Many teenagers don't like classical music because they didn't listen to it in the childhood.

1) Any pop song is usually under five minutes and makes people want to dance. A piece of classical music lasts more than 20 minutes and needs ability to listen carefully. Teenagers are not taught to think with their own brains. If popular media often broadcast any classical music, most teenagers would find it interesting.

2) I think a lot of teenagers didn't get a chance in school or at home to listen to classical music. Classical music is an emotional thing. When people listen to music, they often think about things which happened in the past. But for teenagers it is not a popular genre.

3) When I went with my mum to see the opera *Tristan und Isolde* by Richard Wagner, I was very excited. From that day on I began to listen to other operas by Wagner and then moved on to many other pieces of classical music. Then I wanted to tell about my "discovery" to all my friends. I told them it was the best thing in the world and invited them to go to a concert with me. But they didn't want to.

4) Most of young people think classical music is for special people. Why? What special thing are they going to find in listening to classical music? I'd like to tell them to just listen to it and not try to find something special in it. And when they do it, they will enjoy it!

5) Classical music isn't usually a teen's favourite genre of music. But it's not their least favourite either. Most teens would be fine with listening to some Mozart in their parents' car on the way to school. They're not going to cry to stop the radio.

6) I'm not a fan of classical music (I prefer punk), but I have a friend who only listens to Mozart or Beethoven. He plays the piano, but it's just his taste in music. I understand him because I can create a story in my head with classical music more easily than with any other genre of music. It's great for relaxing, trying to fall asleep, and much more.

7) Though I prefer such genres as Rap, Hip-Hop and Tropical House, it's nice to listen to peaceful piano music now and again. It's also great when I'm studying. It helps me a lot.

DVD script:

The umbrella is the symbol of British businessmen. Nowadays all people have umbrellas, but before 1750 men never carried umbrellas.

Many hundreds of years ago, rich and important people in hot countries like China, India and Egypt used umbrellas. Poor people worked in the sun but they never used umbrellas.

Chinese invented the first umbrella for use in the rain. They put oil and wax on their umbrellas.

Umbrellas reached Britain about 400 years ago. At first only British women used umbrellas, men didn't like them. In 1750 the British traveler Jonas Hanway started using an umbrella on the streets of England. After this, umbrellas became very popular in Britain.

The first umbrella shop, James Smith and Sons, opened in London in 1830. It's still open today.

In 1437, Ulugbek created the catalogue of the sky, where 1018 stars were described. In 1444, after thirty years of astronomical observations, the great astronomer created his scientific work – “Ziji Kuragonyi”.

BEAR can be easily controlled by a remote. BEAR can lift up to 236 kilograms and it can see the environment at night with optical cameras. It was constructed in 2011.

2) BINA48

Since 2014 the android BINA48 has had the title of the most human-like android ever made. BINA48 was made after the real person, Bina Aspen. Bina's thinking, memories, emotions, and feelings were downloaded into the android. BINA48 now has the ability to hold conversations on a number of topics using the actual Bina's manners. BINA48 also has the ability to learn, and her vocabulary and knowledge grows each day when she communicates with other humans.

3) Atlas

In 2013, one of the most technologically modern robots appeared. Known as Atlas, the robot stands almost two meters tall and weighs about 150 kilograms. The robot was made to be a humanoid helper in dangerous situations like at an atomic electric power plant. While Atlas looks like Terminator, things get even frightening when you realize what it can do

with its 28 joints, arms, legs, head, body and a computer inside. Atlas can not only see its environment, it can climb a ladder and drive a car.

4) Morpheus

Imagine that you could control an android just using your mind! These mind-control technologies are used in a small robot known as Morpheus. It is NASA's project. It was introduced in 2012. Some electrodes are fixed into the operator's head. Scientists think that Morpheus will be able to be a good companion and help many people.

5) ASIMO

ASIMO was shown in October 2000. It stands just 1.3 meters tall and weighs 54 kilograms. The robot was designed to be a personal assistant, help those people who can't help themselves. It uses a battery and, while it doesn't have a mind of its own, it can be controlled by a computer, or voice signals. ASIMO also has the ability to see different people by their gestures, sounds, and even faces. ASIMO turns its face to you when you walk in a room and shake your hand if you put it out first. It can even memorize up to 10 people.

6) FEDOR

FEDOR is a Russian humanoid robot that is controlled by an operator and also it can perform some actions itself. It was developed to do a lot of things from helping people, driving cars and flying into space. It can answer questions and make conversations, and even tell jokes, although only in Russian at the moment. On 22 August 2019, FEDOR, a 180 centimetres tall robot was sent to the International Space Station (ISS). It spent a week and a half in the ISS. In the future such robots will do work which is dangerous for humans, such as activities and operations on solar system objects.

LISTENING

1 Listen and choose the correct answer. (7x2=14)

DVD script:

Reporter: Welcome to ‘Strange but true’. First on our programme today – interviews with people who think they’ve seen something veeeeery straaaaange. Good morning, Mrs Brown. You saw a UFO last week. Can you tell us about it?

Mrs Brown: We were driving along the road. It was almost midnight. Then it happened. First we heard a loud noise. And then a big, bright silver object flew low over our car. And the car stopped. Then as we

watched, the object went straight up into the sky and disappeared.

Reporter: Why do you think it was a UFO?

Mrs. Brown: It looked strange. It wasn't like anything we've ever seen before so I think perhaps it was a UFO.

Reporter: And what about you, Mr Salter? Did you see the same thing?

Mr Salter: No, it wasn't the same. It was a long thing – like a fat cigar and about the size of a large airplane. It had lots of windows and there were lights on in the windows. From out of the back of the plane there was a long line of reddish-orangish fire and at the front too. The thing flew at tree top level and I saw it very clearly because it was just a few metres away. We all saw it – I was with my family. It was so close that my cousin said: 'If there were anybody in the UFO near the windows, I would see them.'

Reporter: Why do you think it was a UFO?

Mr Salter: Well, the next morning we heard it was a meteor. But meteors don't have windows and turn corners like it did. That's why I think maybe it was a UFO. The only other possible explanation is that the army is secretly testing a new plane and they aren't telling us about it.

Reporter: Well, what do you think, listeners – that's two possible UFOs. Our last guest today is Mrs Graves. Let's find out what she saw.

Mrs Graves: Well, we were driving home after seeing our relatives. We were in the countryside. Suddenly everything was quiet and this round silver object flew low over the car. It seemed to land a little way away from us but we didn't see anyone get out. I don't know what it was. You know lots of people in our world would like to be tourists in space. I myself would like to go on a trip to the Moon and look at Earth and other planets from space. I think it could have been a tourist ship from another planet. I've heard that the Japanese have already designed a space hotel and a spaceship for tourists. So maybe this was one from another planet coming to have a look at earth?

READING

4 Read and say True or False. (8x2=16)

The planet Pluto was opened in 1930. It was named by an 11-year old girl from England. Since then many people grew up thinking that Pluto was the ninth planet of the Solar System. Its diameter is only 2,372 km. It is so far from earth that the most powerful telescopes could only show Pluto as a grey image in the Kuiper belt. The Kuiper belt is home to hundreds of thousands of icy, rocky objects, many bigger than 100 km across and over 1 trillion or more comets. Since 2006, little Pluto is no longer a main planet but a dwarf planet because of its size. Pluto is the largest dwarf planet discovered so far.

Pluto is smaller than our moon and it is a strange world that has valleys, plains, mountains, and possibly ice. It has five moons and the biggest moon is Charon, which is almost half the size of Pluto. The temperature on its surface is -229 degrees C. It is thanks to the New Horizon spaceship that we have learned so much about Pluto and its hard area. New Horizon also showed that Pluto's area has mountains as tall as 3,500 m which are close to the size of Earth's Rocky Mountains in the USA.

One day on Pluto takes about 153 hours. For Pluto it takes 246 earth days to make a full orbit of the sun. Sunlight on Pluto looks like moonlight on Earth.

- 1) Pluto was known by the scientists before 1930.
- 2) Pluto was a girl's name.
- 3) Pluto's diameter is more than 2000 km.
- 4) The Kuiper belt consists of rocks, comets and planets.

- 5) After 2006 Pluto has been called a dwarf planet.
 6) The moon is bigger than Pluto.
 7) The New Horizon spaceship discovered Pluto's area.
 8) The sunlight is very bright on Pluto.

DVD script:

Art, in its many forms, exists in every community, every culture, and every country. Art has been created since prehistorical times. Why do people create art?

1) Many artists enjoy the fun of mixing colours on the palette wasting away time in a studio with favourite music playing, the feel of clay between the fingers, etc.

2) Some pieces of art are very personal. It is a way to make thoughts and memories open.

Art allows us to express things which can't be explained with words. When I listen to somebody making music, I often get a feeling or an imagination about how this person might be. Or if one says "I'm angry", it's just a kind of feeling of how this person really feels. Art can express something like this much deeper than any explanation could.

3) Many artists paint, sculpt, photograph, etc. to have some sort of effect on the viewer. They are hoping for a reaction, whether that be positive or negative. Vincent Van Gogh felt this way about painting, as we learn from his famous quote "I want to touch people with my art. I want them to say 'he feels deeply'."

4) People have no choice because everything is created and everything that is created is art. I cannot see the difference between making a cup of tea or painting a picture for they are both created and both art. Every culture has art. Like language and laughter, art is a fundamental human character. Put very simply, art is a part of who we are. We need art because it makes us complete humans.

5) Art, like language, is a medium to express ideas and to share information. Art offers us a method to communicate what we may not necessarily fully understand or know how to express. Art helps us to share thoughts, ideas and visions that may not be able to be explained by any other way. As the saying goes, "Life imitates art". Art shows us what may be possible, and we can then work towards those new ideas until the point comes where we can put them into our experience.

6) Art is a history lesson, a historical record, a preservation of culture, and an autobiography all in one. Art documents events and experiences and allows us to richer understand history. Art reflects cultural values, beliefs and identity, and helps preserve the many different communities

that make up our world. Art records our own lives and experiences over time. We need art to understand and share our individual and shared history.

7) While beautiful scenes are sights to look at, they become a new creation altogether when turned into art. When Vincent Van Gogh was spending time in the sanatorium, he created the view outside his window, which is now the famous Starry Night. Most of the people make art to document nature, a landscape or a city.

A genre is a particular type or style of art, literature, film, or music that you can recognize because of its special features. Nilufar: Yes ... great. I love modern art and my favourite artist is world-famous Claude Monet ... But I like young and not famous artists too. They are sometimes very unusual and beautiful. Do you like traditional or modern art?

Abror: Oh ... It doesn't matter. I like beautiful pictures ... and traditional genre painting is my favourite. I like to think about people in the picture, about their life and what the artist wanted to tell us.

Nilufar: You look like a real fan of art, don't you?

Abror: Yea ... When I go to other places I always visit a museum or an art gallery there. My dream is to look at original 'Mona Lisa' by Leonardo da Vinci.

Now there are more than 200 000 works from paintings, sculptures, and drawings to photographs, films, and even performance art pieces.

Abror: Wow... interesting ... I'd like to visit the British Museum in London. It was founded in 1753. It's a museum of human history and culture from the ancient times to the present. There are more than 7 million objects from all continents.

Akmal Nur (Nuriddinov) is one of the best-known artists of Uzbekistan and abroad. He was born in 1959 in Namangan city. In 1997, Akmal Nur became an academic, the chairperson of the Academy of Arts of Uzbekistan. And in 2003, he was given the title of People's Artist of Uzbekistan. Akmal Nur tells about his career in the interview to the journalist of Advantour.com.

- What are you looking for and what are you trying to find in your creative work?
- I've spent all my life to find out myself in my works. Generally

speaking, I believe that every creative person should try to find himself. Unfortunately, at times, we are wasting a lot of time.

– What are you working at now?

– Now I'm working at the picture of a woman with a child. This woman is pure like an angel. She wants her child to be healthy and clever, and she asks God for it. And the sentences from the Koran are written in the picture.

– Your works are full of love, aren't they?

– Any master should always be in love. As Al Arabi says: "Wherever you are, keep yourself in the state of love". As an artist I'm looking for God in a female. For example, I never take portraits, but I always try to look deeper into the person. I need to show my feelings.

– Every artist has his own secret symbols in his works. Please, share your secret of your symbols with us.

– Symbols in my pictures are mostly coming with my feelings. But in the East, bread is a symbol of God. There are some other symbols: an apple symbolizes life and youth, and fish is a symbol of purity. The picture "The World inside Me", for example, shows a shape of a fish, and a young girl inside it. This picture symbolizes beauty and purity for me.

– Do you often go to other countries? What country was the most interesting?

– I do not go often abroad. I remember especially a trip to Venice. At that time Venice seemed to me as the name of a beautiful girl. But I was most impressed by India. In 1992, I visited India and created a lot of works about that country. By the way, it was in India where I took the nickname Akmal Nur. Before this, I was Akmal Nuriddinov. Once an artist in India asked me, "Why is your surname Nuriddinov? According to oriental rule your name should sound like Akmal Nuriddin or Akmal Nur because there is religion and light in your works". I agreed and since 1992 I began using the name Akmal Nur on my pictures.

– And what helps you create your works?

– My country Uzbekistan. The people and language is special here. I started creating the pictures of women in white headscarves. For me, a white headscarf is a symbol of purity.

– What's important for developing of fine arts in Uzbekistan?

– I'd like to say that we have a good school of painting here in Uzbekistan. This fact is known not only in our country but also in the world. Nowadays we like the European art school but we must have our national Uzbek school. As Chairperson of the Academy of Arts, I am fighting for bringing back the oriental school of fine arts. It will give Uzbek artists the opportunity to get academic knowledge of the ancient oriental traditions.

Activity 3b Work in pairs. Write a review of the picture. 11 min Objective: to develop writing

Ask the pupils to work in pairs. They write a review of the picture and use the questions as a plan.

Possible answer:

This is the picture "The Morning Walk" painted by Thomas Gainsborough in 1785. This is a portrait of two young people: a woman and a man in old fashioned clothes. The figure of the woman is in the centre. The woman is pretty and slim. She has blue eyes and thick curly golden hair. She is wearing a beautiful long light dress with a black belt and a big black hat. The man is tall and handsome. He has a black suit and short trousers on. His eyes are dark, he looks important. They are walking under a tree with a white dog. They are looking at something on the right. The people may be in a garden or in a park. The picture has dark colours but there is a piece of bright blue sky in the background. Perhaps it is early morning in the summer or spring. Both people look calm and happy. I think they are married or going to get married. The artist is very talented and we can see a lot of details in the picture. I like this picture because it makes me feel calm and peaceful.

1) This sculpture is called Caring Hand. Eva Oertli and Beat Huber are the names of the sculptors. The sculpture is located in a beautiful city of Glarus, Switzerland. It was created as a message to show how important nature is. People must think of how to take care of the beauty all around them.

2) This work by British sculptor Gali May Lucas shows how people use smartphones in their everyday life. Three figures are sitting on a bench in the ordinary smartphone-user position and texting. The screens give light to their faces. The artist's idea is to send a message that people are looking at mobile phones all the time. The electronic devices give us information, but we stop thinking about the real world.

3) This sculpture shows us a figure of a man that is standing, with his hands in his pockets, and crying. If you get closer to the figure, you will see that there is real water running down his cheeks. This sculpture-fountain was created by the artist Marie-Louise Ekman and is called "The Swedish Language". The message of the sculpture is that people in the modern world have a lot of problems, but they should stay strong.

4) 26 figures of children is one of the brightest monuments of the Underwater Sculpture Park in Grenada, Spain. The statues have become a man-made home for sea animals and plants. The circle of children shows the life cycle and that humans must take care of the nature for the best future of children.

5) This art monument in Belgium is called "The Skyscraper". This is a very tall whale which consists of 5 tons of sea plastic that was collected in just 4 months. It has plastic packets, bottles, toys and even chairs and other things. According to the scientists, up to 10 million tons of plastic comes into the sea each year. It shows a problem of the dirty ocean to people and the fact that plastic may kill a lot of sea animals. We must keep rivers, seas and oceans clean.

6) At one of the Moscow Metro stations there is an unusual monument in the hall. The monument is about a dog whose name was Malchik. For three years the dog lived at the station when a 22-year-old woman killed

it. When it was killed, a lot of people were angry and the woman was taken by the police. People collected money and the sculptor Alexandre Tsigal made the monument in 2007. The sentence on the monument says that humans must not be cruel to animals.

LISTENING

1 Listen to a dialogue and choose the correct answer. (7x2=14)

DVD script:

Lola: Hi Alisher. Have you finished your project work about an art museum?

Alisher: Not yet. But I have found a lot of information about the Savitsky's Museum in Nukus.

Lola: Interesting. What's it famous for? Is it old?

Alisher: It isn't an old museum. It was founded in 1966 but it has the second largest Russian avant-garde collection of the 20th century in the world! There are not only avant-garde works in the museum, but also applied arts of the Karakalpaks, archeological findings, paintings of the Karakalpak artists and others.

Lola: I've seen a documentary film about this museum 'Desert of not allowed art' in Tashkent GranArt Gallery. It was amazing.

Alisher: The documentary film 'Desert of not allowed art' was produced by American film makers, who worked for 7 years on it. They used unique documentary materials, old pictures, and the music was specially written for the film. After releasing the film, a lot of people all over the world have learnt about this museum. Many people made tours to Uzbekistan.

Lola: If the place were not so far from the central part of Uzbekistan, there would be much more visitors, I think.

Alisher: That's why the film is so important... By the way, the University of California in Los Angeles that has the Russian art courses, uses this film for its lectures. The courses are taught by well-known scientist and fine art expert of Russian avant-garde John Bolt.

Lola: So this film demonstrates the best of Karakalpak and Uzbek traditional art?

Alisher: Certainly. It was shown at over 70 international film festivals, and won some important prizes, and is now nominated for the Emmy American film award.

Lola: We live in Tashkent. If so many people come to Nukus from far away countries, why don't we go and see this interesting place? I would like to travel there on my holidays.

Alisher: Let's go there together. The museum is preparing new exhibitions, for example demonstration of the Karakalpak traditions, national food, throat singing performed by male singers called zhirau, and others.

Lola: I'm looking forward to visiting the museum to see everything with my own eyes. And I hope your presentation will be a success.

READING

5 Read and match the texts to headings. One heading is extra.

(3x2=6)

- A Global success
- B Why are exhibitions so popular?
- C Art Battle's birthday
- D Why is it a big success?

1) Art Battle was born in New York City in 2001. Sean Bono and Max Bode wanted to bring the feelings and emotions of rap battles to the art world. The first battles were live competitions between artists, with the expert artists who chose the winner. The artists and audience loved it, and Art Battle was born!

2) As Art Battles became more popular, they began to look like performances. More and more people were becoming interested in the live events in New York and other places. These early events allowed Champions to take the best of the best on an exhibition tour of global cities. Many works by the winners were sold for big money. At present a lot of global cities are creating their own Art Battle events.

3) Today Art Battle International produces the global competition with more than 200 events each year in the US and Canada, and in more than 60 global cities around the world. From Toronto to Tokyo, Sydney to San Francisco, and Beijing to Bangladesh – Art Battle is the world's live art tournament.

Note: Renewable fuels are fuels produced from renewable resources. Examples include: biofuels (e.g. Vegetable oil used as fuel, ethanol, methanol from clean energy and carbon dioxide [1] or biomass, and biodiesel) and Hydrogen fuel (when produced with renewable processes). This is in contrast to non-renewable fuels such as natural gas, LPG (propane), petroleum and other fossil fuels and nuclear energy. Renewable fuels can include fuels that are synthesized from renewable energy sources, such as wind and solar. Renewable fuels have gained in popularity due to their sustainability, low contributions to the carbon cycle, and in some cases lower amounts of greenhouse gases. Waste-to-energy (WtE) or energy-from-waste (EfW) is the process of generating energy in the form of electricity and/or heat from the primary treatment of waste, or the processing of waste into a fuel source.

Activity 4b Work in pairs. Complete the table about the sources of energy. 7 min**Objective: to activate prior knowledge**

Ask the pupils to work in pairs. They divide the sources of energy into renewable and not renewable.

Answer key:

fossil fuel or not renewable	renewable
coal, gas, oil, nuclear power	wood, water power, wind power, wave power, solar power, waste to energy

Activity 1a Listen and repeat the new words. 3 min

Objective: to introduce the new words

Ask the pupils to look up the new words. Then they listen and repeat them.

Activity 1b Work in pairs. Answer the question. 3 min**Objective: to activate previous knowledge**

Ask the pupils to work in pairs. They should tell the alternative sources of energy.

Note: *Solar power* is the first energy source in the world. It was in use much earlier before humans even learnt how to light a fire. For example, to keep warm or for drying clothes.

Wind power is one of the energy sources that have been in use for a very long time and for centuries.

Geothermal energy means energy drawn or harnessed from beneath the earth. It is completely clean and renewable.

Water power. The energy of the moving water can then be captured and called as hydroelectric power.

Biomass energy is generated through conversion of biological materials and wastes into forms that can be used as energy sources for heating, power generation and transportation.

Tidal energy. Wave energy and Ocean thermal energy conversion (OTEC) via which ocean energy can be harnessed.

Activity 2a Work in pairs. Match the sources of energy to pictures.**Objective: to activate previous knowledge 4 min**

Ask the pupils to work in pairs. They should name the kinds of energy represented by six pictures.

Answer key: 1b, 2f, 3d, 4a, 5c, 6e

Activity 2b Listen to the text and say which sources of energy are modern or old. 5 min**Objective: to develop listening for specific information**

Ask the pupils to listen and say which sources of energy are old or modern.

DVD script:

Announcer: For a long time, electricity's been made by using the fossil fuels. We know that they're running out and they're dangerous for the environment. Scientists are looking at new, safer ways to make the power we need. Today, our guest is Mr Beckerson, a leading scientist on alternative sources of energy.

A: Good morning, Mr Beckerson. Could you tell us ... what are the alternative sources to fossil fuels for getting electricity?

B: The most important sources are ... nuclear power, solar power ... and the power of the wind.

A: Are they modern inventions?

B: Not really. Nuclear power ... yes, it's modern ... but solar and wind power ... no. The power of the wind was first used ... about 5,000 years ago, when people began to sail in the ocean. Then for hundreds years people used wind as a source of energy.

A: ... windmills?

B: Yes ... people used windmills to make flour.

A: Oh ... yes ... I remember, my granny told me stories about windmills. But nowadays people don't use them anymore.

B: You're right. But ... as you said ... we have problems with fossil fuels ... and people in many countries started using the power of the wind again and also energy of the Sun.

A: You said that people used solar power long ago ...

B: Yes... for example, over 3,000 years ago a King's palace in Turkey was warmed by water heated by the Sun...

A: Can people collect the solar energy?

B: Yes ... The first place for collecting the Sun's energy was built in France in 1714. Nowadays a lot of solar power stations have been built in Japan, the USA, France, Israel, Australia ...

A: What places are the best for solar power stations?

B: Er ... that's a very good question ... The whole planet gets much energy from the Sun ... er ... even a cool country like the UK gets 80 times more sunshine energy than ... its population can use.

A: Is solar power cheaper than wind power?

B: Hm ... wind power is cheaper but solar power ... has many good points: for example, both wind power and solar power are environmentally-friendly. They're not as dangerous as nuclear power and it'll be another 5000 million years of the sunshine!

Activity 2c Listen to the text one more time and complete the table about the sources of energy. 4 min

Pupil 1: Mr Green, ... is it effective to recycle material, for example, paper? We hear that this factory uses a lot of energy, water...

Mr Green: Yes... you're right. We use a lot of energy and water but... in fact, we use only half the energy and much less water than is needed to make paper from trees. And we save trees.

Pupil 2: Oh, that's interesting – so, making recycled paper uses fewer resources than making new paper. But, Mr Green, we've heard that a lot of chemicals are used in the factory... . Chemicals are very dangerous for people... and animals...

Mr Green: Hmm... Yes. But I want to point out two good facts: number 1 – as you say, if paper is recycled there is less waste and more trees are saved and number 2 – we use less harmful chemicals, for example, we don't use chemicals to make our paper white.

Pupil 1: Can children do something... to save trees?

Mr Green: Oh, yes! Have you ever collected paper for recycling?

Pupils: Yes, but...

Mr Green: 'But?' ...

Pupil 2: You see, ... we collected paper when we were small... but not now...

Mr Green: Oh... I see, well... that's not good... . I think you understand now how it is important to collect paper...

Pupil 1: Yes. We'll collect paper...

Pupil 2: And we'll write about this in our school newspaper...

Pupil 1: And we'll make a poster for our school.

Pupil 2: And we can make a leaflet and send to other schools.

Pupil 1: Thank you very much, Mr Green, it was very interesting.

Answer key: 1) We use only half the energy and much less water than is needed to make paper from trees. Making recycled paper uses fewer resources than making new paper. 2) We save trees. 3) It is less dangerous for the nature. We use less harmful chemicals, for example, we don't use chemicals to make paper white.

Europe	2003	heat wave		
East Africa	2011-2912	dry period without rain		
Australia	2019-2020	bushfire		

Activity 4b Work in pairs. Listen one more time and complete the table. 4 min

Objective: develop listening for details

Ask the pupils to work in pairs. They listen one more time and complete the other two columns of the table.

DVD script:

- 1) The 1931 China floods were some of the worst floods in history, and together formed one of the worst natural disasters of the 20th century. Approximately up to 4 million people died, especially Tanka people. First

there was a long period without rain. Then many people and animals did not have any food and died from hunger. After that the floods came and more people were killed. After the floods many people died of hunger and illnesses.

2) European heat wave is one of the horrible natural disasters happened in the world. In 2003, the hottest summer resulted a heat wave in Europe that killed more than 70,000 people in Europe including France, Portugal, Germany, Netherland, Spain and Italy. France was hurt the most. During the heat wave average temperature was over 45°C.

3) In East Africa from July 2011 to June 2012, there was a long dry period when there was no rain. Somalia, Kenya, Djibouti and Ethiopia were the main countries. Lives of more than 9,5 million people were in danger. Too many people went from Somalia to Kenya and Ethiopia which caused bad conditions of living, illnesses and little food. Many people died.

4) Australia has always had bushfires - it has a "fire season". But this year they are a lot worse than normal. Since September 2019 the weather in Australia was too hot and dry. 2019 was the driest year Australia has had since 1900. The reason is the rising levels of CO₂ which warms the planet. That is why the bushfire was on the area of 63,000 sq km where most of the population lives and there are national parks for rare animals. Many people died. More than 1,250,000,000 animals were burnt alive. This includes thousands of koalas, kangaroos and other rare animals. Russell Crowe, an actor, film producer and musician, who has lived most of his life in Australia said, 'The tragedy in Australia is climate change-based. We need to act based on science, move our global work to renewable energy and save our planet for the unique and amazing place it is. That way, we all have a future.'

Activity 1 Work in pairs. Think what the quotation means. 7 min

Objective: to develop critical thinking

Ask the pupils to work in pairs. They read and think what the quotation tells about.

Note: Anne Frank was one of the thousands of Jewish children who were killed in the Holocaust. She became a well-known name and one of the most discussed victims of the holocaust after her diary 'The Diary of a Young Girl' which has been translated into over 70 languages.

Activity 2a Work in groups of 4/5. Answer the questions. Make a list.

Objectives: to activate prior knowledge; 7 min
to develop critical thinking

The pupils think and answer the questions. They make a list according to how fast things will disappear.

Activity 2b Work in groups of 4/5. Answer the question. 7 min

Objectives: to develop speaking; to develop critical thinking

The pupils think how long each item will last (how many weeks, months, or years).

Activity 2c Listen and check. 5 min

Objective: to develop listening for specific information

The pupils listen and check their ideas in Activity 2b.

DVD script:

Activity 3a Work in pairs. Do the quiz. 5 min

Objectives: to develop critical thinking; to activate prior knowledge

Ask the pupils to work in pairs. They do the quiz.

Answer key:

1) 97% (*While it may sometimes seem in the media that scientists are debating whether or not people cause climate change, that's not true. Of all the climate scientists who are currently publishing research, about 97 percent agree that Earth is having human-caused climate change.*)

2) false (*Climate change is a long-term temperature and other climate-related facts. Global warming is a worldwide increase in average surface temperatures. Both things are happening.*)

3) a

4) b (*Even then, a much higher number of experts were concerned about global warming than “global cooling” as noted in a survey of the climate science literature published from 1965 to 1979.*)

5) b (*Recycling is great. But scientists say going car-free has a much bigger result.*)

6) a (*Just 9 percent of plastic waste is recycled. Most people thought the amount was 26 percent, according to a 2017 survey.*)

7) c (*And the other year was in 1998. By the way, we’ve been keeping modern-style global temperature records since 1880.*)

8) b (*One of the best climate scientists Kate Marvel told The New York Times, “It’s too late to avoid climate change, but it’s not too late to prevent the worst outcomes. Even if the planet is already warming, we still should do what we can limit the damage.*)

Activity 3b Work in pairs. Answer the question. 7 min

Objectives: to develop critical thinking; to develop speaking

Ask the pupils to work in pairs. They answer the question.

DVD script:

1) Heavy rainfall in 2000 caused a flood in Mozambique, South Africa. It was caused by heavy rainfall that lasted for five weeks. The capital Maputo was flooded. More than 800 people were killed and about 20,000 cows were lost. Lots of people are still homeless. It was the worst flood in Mozambique in 50 years.

2) One of the worst tsunami happened in December 2004 in the Indian Ocean. The tsunami killed at least 225,000 people in Indonesia, Sri Lanka, India, Maldives and Thailand. It brought extremely large waves that were up to 9 meters high. On the first day more than 150,000 people were killed and millions were missing in this environmental event.

3) In August 2005, the United States of America faced one of the worst hurricanes in a last hundred years' time. It hit the state Florida and some cities in Mississippi, New Orleans, Biloxi and Gulfport. Approximately 1833 people were killed in the hurricane Katrina and the floods which came there after the hurricane. Scientists say that the storm was made worse by rising sea levels and warming temperatures because of the climate change.

GRAMMAR AND VOCABULARY

2a Read and choose the correct words. (4x2=8)

e.g. 1) did not fly

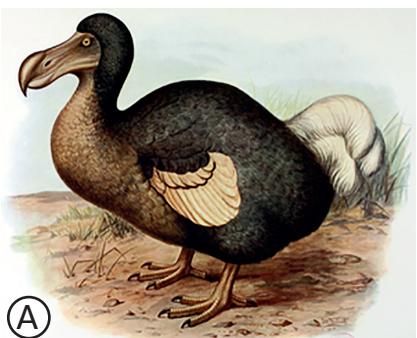

the dodo, relative, did not fly, could eat them, because of humans

The dodo was a bird that (1) Like many other island birds, dodos only lived on the island of Mauritius. There were no other animals which (2) ... and they lost the power to fly. The dodo was about 1 metre tall and could have weight of 10.6-17.5 kg. It was brownish-grey with yellow feet. The first people landed on Mauritius in 1598. Less than 65 years later, (3) ... disappeared. Perhaps you've heard the popular saying "as dead as a dodo". The dodo is one of the first birds which have died (4) ... since the late 17th century. The nearest dodo's (5) ... is the Nicobar Pigeon.

Answer key:

1) did not fly; 2) could eat them; 3) the dodo; 4) because of humans;
5) relative

2b Read and choose the picture of the dodo bird. (1)

Answer key: A

3a Read and match the texts with headings. (6x2=12)

- A Can't animals just run away from a fire?
- B Were the Australia fires caused by climate change?
- C What about the future?
- D How big were the Australia fires 2020?
- E How do the Australia fires usually start?
- F How many animals have died in the fires?

1) Bushfires have always been a part of Australia's ecology and environment for thousands of years. Fires are usually caused by a thunderstorm. But some fires are started by people. The worst fires are caused by a long period when there is no rain and there are heat waves. The bushfires of 2019-2020 were a lot worse than normal. At least 26 people died.

2) More than 63,000 sq km in Victoria state, the Blue Mountains, the regions in Southern and Western Australia were on fire. This territory is as big as 6.3 million sports fields. An environmental scientist of the WWW Australia, Stuart Blanch, said that the fires had reached Victoria's Alpine National Park and New South Wales's Kosciuszko National Park – home to very rare animals.

3) Scientists have long talked that the climate is changing. Hotter and drier weather makes the risk of fires. In September 2019, the weather in Australia was too hot and dry. In January, the Australia's driest summer month, rainfall was 40% lower than average. It was caused by rising levels of CO₂ on the planet. Australia had a new temperature record: an average maximum of 41.9C was recorded on 18 December 2019.

4) More than 1,250,000,000 animals have died in Australia's wildfires. This includes thousands of koalas, kangaroos, wallabies, kookaburras, cockatoos and honeyeaters which were burnt alive. But the fires don't only kill animals; they also ruined their habitat, leaving the animals without food and home. We can have no such rare animals as the corroboree frog, the mountain pygmy-possum, the black cockatoo and koalas in the

future. Experts say that more than 100,000 cows and sheep were lost for farmers.

5) "Certainly, large animals, like kangaroos, emus, many birds, can move away from the fire," Prof Chris Dickman, an expert on Australian wildlife, said. But he added that "Sometimes the fire is coming from different directions. In this case there is no way for any animals to leave away." "And there are the smaller animals that cannot run. Koalas are a good example. Approximately 8,000 of them have died from the fires," ecologists say. "That's almost one-third of all koalas in Australia, which forms their main habitat."

6) The president of the Australian Academy of Science, Prof John Shine, said, "Australia must take stronger action as part of the world community to limit global warming to reduce the worst problems of climate change in the future."

Answer key: 1e, 2d, 3b, 4f, 5a, 6c

3b Read and say True or False. (6x2=12)

- 1) There were bushfires in Australia before 2020.

- 5) Many animals died after the fires.

Activity 1a Listen and repeat the new words. 7 min

Objective: to introduce the new words

Ask the pupils to look up the new words. Then they listen and repeat them.

Activity 1b Work in pairs. Answer the questions. 5 min

Objectives: to activate prior knowledge; to infer the answers to the questions

Ask the pupils to work in pairs. They ask and answer the questions about the first theatres.

Note: A theatre is a form of art performance that uses live performers, usually actors or actresses in a specific place, often a stage. The performers may communicate with the audience through gestures, speech, song, music and dance. Some people, both English and American, use the spelling ‘theatre’ to mean a place where live plays are performed, and the spelling ‘theater’ to mean a cinema.

Activity 1c Work in pairs. Read and check your ideas. 5 min

Objective: to develop reading for specific information

Ask the pupils to work in pairs. They read and find out the answers to the questions in Activity 1b.

Activity 2 Work in pairs. Read and say how old the ancient Greek theatre is. 5 min

Objective: to develop reading for specific information

Ask the pupils to work in pairs. The pupils read and try to understand how to calculate the dates AD (CE) and BC (BCE). If it is difficult for the pupils to understand, explain it to them in their language.

Note: Although the abbreviations AD and BC have been current since around 1800, many people now prefer to use CE (Common Era) and BCE (Before the Common Era), especially in academic texts. The numbering system is the same, but it avoids reference to Christianity. BCE stands for "Before the Common Era or BC (Before Christ). If the event happened in the 17th (AD) century, we should extract the number from now e.g. 21-17=2 centuries (200 years).

There is no 0 AD. So the year after 1BC is 1AD.

Possible answer key:

Ancient Greek theatre is (2020+700=) 2720 years old.

Activity 3a Work in pairs. Listen and repeat the new words, and show them in the pictures. 3 min

Objective: to introduce the new words

STEP 1: The pupils listen and repeat the new words.

STEP 2: Ask the pupils to work in pairs. They find the objects in the pictures.

Activity 3b Work in pairs. Answer the questions. 5 min

Objectives: to develop speaking; to develop critical thinking

Ask the pupils to work in pairs. They ask and answer the questions about the pictures.

Activity 4a Work in pairs. Listen and complete the table about Uzbekistan. 3 min

Objective: to develop listening for specific information

Ask the pupils to work in pairs. They listen and complete the table about Uzbekistan.

Answer key:

	When was it formed?	Clothes?	Who speaks and operates a doll?	What are performances about?	What do puppets do?	Popular now?
Uzbek puppet show	e.g. 4th century BC	Uzbek national	One puppeteer moves and speaks for one doll	Uzbek traditions and culture, heroes of national literature, tales and legends	move; there is music	Yes

Activity 4b Listen one more time and complete the table about Japan.

Objective: to develop listening for specific information 3 min

Ask pupils to work in pairs. They listen and complete the table about Japan.

Note: If the pupils wish, they can calculate how old the Uzbek puppet show is: $2020+400=2420$ years old. Bunraku show is $2020-1700=320$ years old.

DVD script:

The tradition of the puppet show in Uzbekistan dates back to the 4th century BC, to the times when puppet shows gathered crowds of people on bazaar squares. On the simple place with a screen, there were mini-

shows about people in love, the rich and the poor. Puppet performances are still popular in many cities of Uzbekistan. The State Puppet Theater in Khiva is very special. This is the only Uzbekistan puppet theater, where one can still feel the ancient bazaar performances. Puppeteers use glove puppets and marionettes. Glove puppet is a toy person or animal that has a soft body so that you can put your hand inside and move. They are made of wood, ceramics and other materials. Marionette is a small model of a person or animal with parts of the body that are moved with strings. Each puppeteer speaks for his or her doll. The performances include tales and legends "Golden Watermelon", "The Tale of Shohsanam", "African Song", "Golden Fish", "Tutikhon Show" and others. They are still popular because in the performances Uzbek traditions and culture, national costumes and music is shown. It is part of our history. The audience can see heroes of national literature. The puppeteers show their performances in big and small cities of Uzbekistan and take part in International festivals.

Bunraku is a traditional form of Japanese puppet show which was formed in the 17th century. The National Bunraku Theatre in Osaka and the National Theatre in Tokyo are the best places to see it. One puppet, or doll, is operated by three people, making the doll humanlike. A traditional performance consists of the puppeteers, the singers and the musicians. The Bunraku puppets are made of wood with different heads and arms depending on the role. Their heads are really great. They can move their eyes, eyebrows, and lips, and even show a tongue. The story is told by one person, who also speaks the voice of all the puppets both males and females. Bunraku often shows stories based on classic Japanese sad love stories, legends, tales and stories based on historical events. The performances are visited by children and adults. Bunraku theatre is recognized by a UNESCO Cultural Heritage.

Answer key:

When was it formed?	Clothes?	Who speaks and operates a doll?	What are performances about?	What do puppets do?	Popular now?
Japanese Bunraku	17th century	Japanese national	Three puppeteers operate one doll, only one person speaks the voice of all the dolls	stories, legends, tales and stories based on historical events	move their eyes, eyebrows, and lips, and even show a tongue; there are singers and musicians

Activity 4c Work in pairs. Say about differences about the Uzbek puppet show and Japanese Bunraku. 6 min

Objectives: to develop speaking; to develop critical thinking

Ask the pupils to work in pairs. They compare Japanese and Uzbek puppet show.

The pupils work in pairs to check homework.

Activity 1a Work in pairs. Look at the picture. Say what you know about Bernard Shaw. 5 min

Objectives: to develop speaking; to activate prior knowledge

Ask the pupils to work in pairs. Looking at the picture, they say what they know about Bernard Shaw. Elicit some answers.

Activity 1b Work in pairs. Ask and answer. Pupil A: look at this page. Pupil B: look at page 75.

Objective: to develop speaking 5 min

Ask the pupils to work in pairs. They ask and answer to complete the text.

Activity 2a Work in pairs. Answer the questions about the characters of the play Pygmalion. 5 min

Activity 2b Work in pairs. Read and check your ideas. 4 min

Objective: to develop reading for specific information

Ask the pupils to work in pairs. They read the text and find out the answers.

Note: Pygmalion is a play by George Bernard Shaw, named after a Greek mythological figure in which Pygmalion was a sculptor who fell in

love with a statue he had carved. Shaw's play has been adapted numerous times, most notably as the musical My Fair Lady and its film version. It has a happy end. Higgins got married miss Doolittle.

Activity 3a Work in pairs. Listen and answer the questions. 4 min

Objective: to develop listening for specific information

STEP 1: Ask the pupils to work in pairs. They read the questions.

STEP 2: They listen to the text and answer the questions.

Note: The word "ain't" is rarely used in English lessons, because it does not correspond to literary standards. However, it is widely used in some regions, for example, in southern states of America. "Ain't" is a shortening of: 1) am not, is not, are not; 2) has not and have not; 3) do not, does not. The word "ain't" is often used in combinations of one more violation of the norms of English grammar – double negation.

DVD script:

HIGGINS *[as a teacher]*: Say your alphabet.

LIZA: I know mine alphabet. Do you think I know nothing? I ain't not a child.

HIGGINS *[thundering]*: Say your alphabet!

PICKERING *[softly]*: Say it, Miss Doolittle. Please, do what he tells you; and let him teach you in his own way.

LIZA: Oh, well, if you put it like that. Ahyee, bayee, cayee, dayee — —

HIGGINS *[with the roar of a wounded lion]*: Stop! Listen to this, Pickering. She spent nine years in school to speak and read the language of Shakespeare and Milton. And the result is Ahyee, ba-yee, ca-yee. *[To Eliza]*: say A, B, C,D.

LIZA *[almost in tears]*: But I'm saying it. Ahyee, bayee, cayee — —

HIGGINS: Stop. Say, "a cup of tea".

LIZA: A capete-ee.

HIGGINS: Put your tongue forward until it squeezes against the top of your lower teeth. Now say "cup".

LIZA: C-c-c — — I can't. C-Cup.

PICKERING: Good, Miss Doolittle.

HIGGINS: Pickering, if she speaks good English, we could make a lady of her. *[To Eliza]*: Now do you think you could possibly say "tea"? Not te-yee, listen: *[Fortissimo]* Tea, Tea, Tea.

LIZA *[weeping]*: I can't hear no difference when you say it.

HIGGINS: Well, if you can hear that difference what are you crying for? Pickering, give her a chocolate.

PICKERING: No, no. Never mind crying a little, Miss Doolittle: you are doing very well, and the lessons won't hurt.

HIGGINS: Be off with you. Think about it. Try to do it by yourself and keep your tongue forward in your mouth. Another lesson at half past four this afternoon. Away with you.

Activity 3b Work in pairs. Explain the stage directions. 5 min

Objectives: to make pupils aware of what stage directions are like; reading for specific information

Ask the pupils to work in pairs. They read and explain what the stage

directions mean. Elicit that the words in brackets say who the speaker addresses and how the words are said.

Activity 3c Work in pairs. Look at the sentences in 3b. Say which verb in Reported Speech is the best. Why? 6 min

Objective: to introduce the imperative sentences in reported speech

STEP 1: Ask the pupils to work in pairs. Draw their attention to the Remember Box and explain the ways imperatives are reported. Explain that imperative sentences in reported speech are changed to infinitive phrases: *tell (ask) + an indirect object + an infinitive* or *tell (ask) + an indirect object + not + an infinitive*. According to the situation, other verbs like *advise, warn, suggest*, and in commands the verb *order* can be used.

Note: While reporting speech the pupils need to pay careful attention not just to the actual words, but also to what was said in the conversation before and to the relationship between the speakers.

STEP 2: Ask the pupils to look at Activity 3b again and pay attention to the words in the brackets. Ask them to say which verb in Reported Speech in Activity 3c is the best for them.

Note: In the first and fourth sentences ‘told’, in the second sentence both ‘told’ and ‘ordered’ are correct, because Higgins is quite demanding and not very polite. In the third sentence ‘asked’ is the best verb because even though he does not say ‘please’, Pickering is very mild and courteous. He addresses Liza very politely – he says ‘Miss Doolittle’.

Activity 4 Listen and write the sentences in Reported Speech. 5 min

Objectives: to develop listening for specific information;

to practise imperative sentences in reported speech

Ask the pupils to listen and write the sentences in Reported Speech.

DVD script:

1) I have a friend who was in a very bad situation. I remember her crying about it all the time. She even started taking drugs and other bad habits. I'm an actor and I decided to take her out for a play I was acting in so that I could keep her from her real world. After the play, she came up to me and told me, "I never knew you could be sooo different on stage" and I told her to try it. She now does a play every two months and loves to be an actress and is happy. Her smile lights up the place, I'm so glad the theater helped her.

2) My name's Kevin Troy. Cinema has many advantages, if the film is good. It's easier to go to the cinema than to go to the theatre. The cinema is always somewhere next to you, the tickets are cheaper if we compare with the theatre's ones. There are lots of film shows at one day, there's popcorn and cola in offer and you don't need to be dressed in a classical clothes.

3) My name's Jessica Gilligan. I work at the theatre in Paris. Humans have started acting out stories probably since the invention of campfire. Theatre unites the imagination of the author, actors and the audience. It connects us to our childhood. And with that it can teach, entertain, and give emotions. Above all, theatre makes us think. It teaches its students to listen, to move, to communicate without speaking, how to be loud without saying a single word, and I don't think there's somebody on the planet that helps you discover yourself as much as the theatre does.

4) My name's Marie Phelps. I'm an actress. Theatre is collective. It needs work and participation from the audience - low energy in the audience gives worse performance - the audience must not be passive. I love this about the theatre. It's not passive like watching TV. Theatre needs imagination!

5) In my opinion, the cinema is more entertaining than live theatre. The material on film and television is much better quality than plays in the theatre. Film and television makes our mind work. On the other hand, live theatre and plays make you listen to long dialogues and give emotions we don't need. Film and television uses images and actions to communicate with the audience while plays use boring dialogue and makes you fall asleep or feel like an idiot. The characters in films and TV are more interesting than the characters in plays (with the exception of William Shakespeare).

6) My name's Davnish Singh. I work for Marvel Entertainment. I love cinema because I can tell stories that have never been told before! Working in cinema makes me happy to make beautiful stories and tell them to my audience through beautiful pictures. It's a way of showing images and an idea that is in your mind. I can make a show for several millions of people and change their thinking process through one idea.

Activity 4 Work in pairs or small groups. Say what you like more: a cinema or theatre. Why? 7 min

Objective: to develop freer speaking

Ask the pupils to work in pairs. They talk about their preferences: movies or the theatre. Remind them that they should explain their choice.

Homework 2 min

Answer key for Homework 1b:

Dear Ann,

Thank you for your letter. It was interesting to know that you have visited "The Globe" theatre in London which is so famous in the world. Last Saturday my friend invited me to go to the theatre to watch a new **tragedy**. I agreed because I like theatre and the weather was **awful**. It was **windy and cold**. We went **by taxi** because we had **little time**. It was **an evening performance** and the tickets were **expensive**. We bought tickets in the box office, and we had **bad seats** in the **balcony**. We could see the stage very **badly**. There were a lot of **sad scenes** in the performance, and we **cried** a lot. The comedy made us feel **unhappy**.

Write me soon about the play you have seen.

This is 'Drama on the Radio' and I'm Sarah Silverstream bringing you up to date with all the latest theatre news. I'm happy to tell you that next week we're going to broadcast scenes from three theatre productions.

1) On Monday at 5.00pm you can hear an extract from a story about two young people from the Italian city of Verona. They love each other but cannot be happy because their families hate each other. Sad, isn't it?

2) The second one is even sadder, in my opinion. The two elder daughters tell lies to their father, the king, but he believes them. Finally, when they treat him very unkindly, he understands that it's only his youngest daughter who really loves him, but this understanding comes too late. You are invited to listen to this tragic story on Wednesday at 4.30pm.

3) The last play will be broadcast on Thursday again at half past four. It's a comedy about two twins who look exactly the same. They started living in different places when they were little boys. Well, they live in different countries, and one day when they are grown up, one of the brothers arrives in the town where the other brother lives. Of course, they are taken for each other by mistake, and because of this there are a lot of funny scenes in the play, and we'll hear one of them. Well, now the usual competition question: what are the plays called? Our young listeners should send their answers to 74 Blackfriars Road...(voice fades)

Botir: Hi Lena. I didn't know you love theatre.

Lena: Hi, Botir. Yes, I like this theatre. I usually don't like matinees with lots of children who are very noisy. I prefer evening performances when I go with my parents. My mother likes Shakespeare's plays very much. Have you been to this theatre before?

Botir: No, it's my first visit here. My friend booked two tickets for this performance. Our seats are in the box close to the stage. Where's your seat?

Lena: Lucky you. Mine is in the stalls. But the eighth row is my favourite. Do you like this theatre?

Botir: Yes, the hall is beautifully decorated. I hope the stage sets will be beautiful.

Alice: You're quite right, but I've already booked seats by telephone.

Bahrom: Oh, it's wonderful. Is it a matinee or an evening performance?

Alice: It's an evening performance.

Bahrom: Where shall we sit? In the stalls?

Alice: No. Our seats are in the balcony. So, perhaps, we'll need the opera glasses.

Bahrom: Shall we meet outside the theatre at 7.15?

Alice: It suits me fine.

Bahrom: So, see you soon.

Homework checking

In groups the pupils compare their homework. Ask them to choose the best in everybody's work. These things can be used in their play.

Activity 1 Work in groups.

- Choose a play to perform
- Decide who will be what character
- Rehearse your play

Objectives: to give pupils an opportunity to work collaboratively; to teach pupils to reach consensus

The pupils work in the same groups. Tell the groups that they should decide whose play is the best and get ready to stage it. They can certainly add things, like clever remarks and interesting stage directions, from different plays into their joint version. The next step is to decide who will play which role. For example, we suggest the following roles for "An Eastern Legend about Tobacco": the wise old man, two or three merchants, three or four people of the village. Then comes the most difficult part of the activity: the pupils must have some space to rehearse their play. They will also need quite a lot of time. If it is not possible to do this during the lesson, you could ask them to stay after classes for a rehearsal. In this case it will be easier to find empty classrooms and time will not be pressing. Then activity 2a will take place some other time, maybe next lesson.

Activity 2a Perform your play.

Objective: to teach pupils to be a good audience

Groups take turns in showing their plays. Make sure everybody in the audience is listening and watching and doing this with respect.

Activity 2b Discuss the plays performed. Say:

- what the play teaches us
- whose play you liked best of all
- whose acting you liked
- whose props were the best

Objective: to practise talking about the moral of the play and the way plays were performed

After all the plays have been shown, the pupils discuss them according to the suggested plan. Try to connect the moral of the plays to present day life, e.g. "The play teaches people not to smoke and not to believe tobacco companies' advertising". Then the pupils should choose the best play, the best actor or actress and the best props. This can be done by voting.

Homework

Ask the pupils to read at home "The Legend of Kirk Kiz" and get prepared for a class discussion.

HOME READING 10 43 min**Objective: to develop understanding of the importance of being brave in the protection of motherland from enemies**

STEP 1: Ask the pupils to read "The Legend of Kirk Kiz" one more time.

STEP 2: As usual, prepare and ask the pupils questions for understanding.

STEP 3: Have a class discussion on the legend. Ask if they like this story. Why/Why not?

Homework 2 min

Ask the pupils to get prepared for Test 3.

TEST 3 45 min**LISTENING****1a Listen and complete "Loves cinema/theatre" column of the table. (4x1=4)****DVD script:**

1) My name's Shakerin Ahmed. I'm an engineer. I love watching movies: mostly action, science fiction and fantasy types of movies. It's like I'm lost in another world for a few hours.

2) My name's Alivia Jones. I'm a bachelor of Music Vocal Performance. I love theatre because you can be someone you're not. Or you can be in a situation you're not. It's really fun and exciting and scary and is usually a process of self-discovery. As an actress I wear costumes. They make me feel very important and ready to perform!

3) My name's Ashok Kumar. Cinema is connected to our mind, the way we're thinking. A film is a mix of many art forms like visuals, sound, performing, so at one time your mind takes many art forms. We can't visit every country and movie is a good form of art to connect the different places of the world.

4) My name's Tina Somber. Theatre keeps you at a distance, always wants you to be ready to listen to a dialogue. If you miss it, you won't be able to listen to it one more time because the next performance might have a different effect.

5) My name's Bruin Faber. I'm 34 years old. I love movies because they're designed to entertain or make you think. Humans live boring lives. Movies take a person and make a setting come to life. I really love movies because they take me away from reality. I mean you can watch the heroes breaking the ring of Mordor.

No.	name	Loves cinema/theatre	Why
1	Shakerin Ahmed	e.g. cinema	a) It looks like visiting other countries for a long time. b) It looks like he is in another world for a few hours.

3	Ashok Kumar		a) It shows performances from many countries. b) It consists of many art forms and makes you think.
4	Tina Somber		a) All performances are different and you should listen to dialogues very carefully. b) All performances are the same and you'll be able to listen to a dialogue next time.
5	Bruin Faber		a) It makes our boring life more interesting. b) It doesn't make you think and only entertain you.

Kabuki is the traditional Japanese classical dance-drama which started in the 16th century. It is known for its very interesting acting and the colourful make up worn by the actors. The word "kabuki" means "singing and dancing". It also means strange and different, to be outside what is normal. Kabuki is not meant to look like real life. All the roles are played by men. In 1926, performances began in other countries. In 1954, East Side Theater was made, and Kabuki stage was on TV.

There are a lot of famous Kabuki actors in Japan such as Danjuro Ichikawa, Ebizo Ichikawa and Koshiro Matsumoto. Danjuro Ichikawa is

5 Read and choose the best summary. (1)

In a very good restaurant we have a dinner that is specially cooked for us; in a canteen we are served with standard portions of standard meal. And this is the difference between the living theatre and the mass entertainment of films, radio and television. In the theatre the play is specially cooked for us. It (the theatre) is the ancient but ever-youthful parent of all entertainment in dramatic form. It is a magical place where man meets his image.

- 1) The ancient art of theatre can help people understand the world and themselves better.
- 2) Theatre often offers us something special, which other forms of entertainment do not do because they produce things for a mass audience.
- 3) Theatre has given birth to other kinds of entertainment. But theatre is special because in a play we see real people, we feel close to them and recognise our own problems, joys and sorrows.
